

Test Results and Interview Guide

Candidate:	Elizabeth Wantsajob
Assessment:	Spatial Reasoning (Short)
Completed:	October 5, 2026
Prepared for:	Sara Maple Example Company

What's Included

- Overall Score
- Competency Summary Table
- Comparison Matrix
- Detailed Competency Results with Interview Guide

Important Note: The Spatial Reasoning (Short) assessment measures key factors related to high performance and tenure in this job. Attribute types measured vary by test, but can include cognitive ability, skills, knowledge, personality characteristics, emotional intelligence, and past behavioral history. This report includes a one page summary, followed by detailed results with an embedded interview guide. Note that these results should always be used as a part of a balanced candidate selection process that includes independent evaluation steps, such as interviews and reference checks.

Overall

Competency Summary

Comparison

Percentile scores indicate how the candidate compares to other test-takers within various groups. The candidate scored equal to or better than the fraction of test-takers indicated by the percentile.

Candidate: Elizabeth Wantsajob, beth.wantsajob@gmail.com
 Assessment: Spatial Reasoning (Short)
 Authorized: October 5, 2026, by Sara Maple, Example Company, qamailsaram.mike@hravatar.com
 IP Address: 96.241.65.10
 IP Country: United States
 IP State: Virginia
 IP City: Gainesville
 Started: October 5, 2026, 1:38:03PM EDT
 Completed: October 5, 2026, 1:38:03PM EDT
 Overall Score: 75

Cognitive Abilities Detail

This section contains a list of job-related cognitive abilities that have been evaluated in a job-like context using simulation technology. Studies have demonstrated that cognitive abilities are highly correlated with job performance for many jobs. Abilities also correlate with problem-solving and the ability to learn quickly.

Detail

Interview Guide

Spatial Reasoning

Score: 75

Description:

The ability to understand complex concepts and make sense of shapes and patterns.

Interpretation:

Strong scores in this area correlate with above average performance for many jobs.

The candidate's score in this area indicates that the candidate has above average spatial reasoning ability.

Describe what spatial reasoning means to you? How can that knowledge be applied at work?

1

Candidate is unable to provide an explanation and does not have an example.

2

Candidate is able to provide an explanation but does not have an example.

3

4

5

Candidate is able to provide an explanation and has at least one example.

Do you think the ability to understand and apply shapes and patterns is important to the role you are applying for? How would you rate your ability to solve a problem through logic?

1

Rating doesn't correspond well with their score. Does not think the ability to understand and apply complex concepts is important to their role.

2

Rating doesn't correspond well with their score. Acknowledges the importance of understanding and applying complex concepts in their role.

3

4

5

Rating corresponds well with their score. Acknowledges the importance of understanding and applying complex concepts in their role.

Identity Confirmation Photos

The following photos of the candidate and any identification were uploaded during the assessment session.

Photo Analysis Results

- Risk:	Medium risk of cheating based on image inconsistencies
- Percent match among processed faces	100%
- Total images processed	17
- Total images with valid faces	14 (82%)
- Total pairs of faces compared	13
- Pairs in which faces matched	13 (100%)

- Administrative Assistant, Global Enterprises Inc., 04/2021 – 08/2023
- Administrative Assistant, Innovative Business Solutions Ltd., 07/2019 – 03/2021

Other Qualifications

- Microsoft Office Specialist (MOS) Certification
- Certified Administrative Professional (CAP)
- International Association of Administrative Professionals (IAAP) Certification

Report Preparation Notes

- Hiring decisions should never be based on a single source of information. The most effective use of this assessment report is as a part of a multi-faceted program of candidate evaluation that includes resume review, interviews, and reference checks.
- Overall vs Percentiles Scores: The overall score reflects the success in the test, based on the mean (average) and standard deviation of the test scores. The percentile score reflects the percentage of test-takers who scored equal or below this overall score. We recommend you use the Overall Score as your primary evaluation criteria. However, percentile scores can often be useful in comparing specific candidates against one another and with a group, such as for test takers in a certain organization or within a certain account.
- Note that comparison information is calculated based on completed instances of this assessment at that time the assessment is scored. As additional instances are completed, the comparative data may change. You can always update a report to the current values by clicking on 'Recalculate Percentiles' within the online results viewing pages at www.hravatar.com.
- Most competency scores are norm-based, which means that they can be interpreted in terms of their distance from the average or mean score. For all scales, a score equal to the mean receives a score of 65 and scores above and below this value are set so that a score change of 15 equals one standard deviation.
- For linear competencies, higher is better across the entire scale. For these scales a score between 65 and 80 (light green) represents 0 to 1 standard deviation above the mean and a score above 80 (dark green) represents more than one standard deviation above the mean. Similarly, a score of 50 - 65 (yellow) represents 0 to 1 standard deviation below the mean, while a score of 35 - 50 (orange) equates to 1 to 2 standard deviations below the mean, and a score below 35 represents more than 2 standard deviations below the mean.
