Assessment Overview

This assessment provides scores for a number of important factors and competencies that are related to success on the job. Scores are presented based on their potential impact on job performance.

Scores are presented individually on a scale of 0-100. In most cases, including the overall score, higher scores represent higher expected job performance. However, for some competencies, either extreme low or extreme high scores indicate a risk of lower performance. Refer to the interpretation section of each competency for additional information.

Individual competency scores are also combined into a single overall score. Please note that individual competencies are weighted differently, depending on their type, and on fine adjustments based on data from the US Government's Occupational Data Network (O*Net).

Each competency measured includes one or more suggested interview questions, in an easy-to-use format. These questions should be used for additional probing, especially when the score shows an area of relative weakness.

Some of the competencies measured evaluate preferences for doing (or not doing) specific activities. Scores for these competencies can be used to evaluate job-fit.

We wish to emphasize that the data contained in this report should be used as part of a comprehensive process for evaluating job candidates. Additional data should include in-person interviews, job tryouts, resume review, and background checks.

Detail	Interview Guide
<p>Competitive Score: 71</p>  <p><i>Description:</i> This scale indicates the degree to which an individual is driven by a desire to impress their leaders and exceed their peers. Being competitive can either be damaging or useful, depending on the job. Competitive people spend much of their time thinking about themselves and the impact decisions may have on them, and their actions are often guided by these thoughts, which can either provide the drive needed to achieve a goal, or can damage the ability of a team to work together. In general, high scorers perform well in sales and related jobs.</p> <p><i>Interpretation:</i> The candidate's score in this area should contribute to enhanced overall job performance.</p> <p>Motivated by challenging goals, financial rewarded, and/or recognition, and willing to work hard to succeed. Focused on personal achievement.</p>	<p>Describe a time when you had to place accomplishing your objectives above supporting your team. Why do you think it was justified?</p> <div style="display: flex; justify-content: space-around; align-items: flex-start;"> <div style="text-align: center;">  1 Justified for selfish or personal reasons. Shows little remorse for failing to support team. </div> <div style="text-align: center;">  2 Shows remorse and feels action was a mistake. </div> <div style="text-align: center;">  3 Clearly justified or was forced to do so by superiors. Strongly regrets and wishes could change. </div> <div style="text-align: center;">  4 </div> <div style="text-align: center;">  5 </div> </div>
<p>Develops Relationships Score: 94</p>  <p><i>Description:</i> This scale indicates a person's desire to cultivate relationships. High scorers seek opportunities to meet new people and get to know them well enough to form a lasting relationship. Low scorers tend to minimize interacting with people they don't know.</p> <p><i>Interpretation:</i> The candidate's score in this area should contribute to enhanced overall job performance.</p> <p>Actively cultivates and maintains relationships. Able to quickly establish rapport with new acquaintances and accurately sense others' feelings. Maintains a broad social network and uses it to achieve work objectives.</p>	<p>Can you describe a time when you had to choose between getting the job done or preserving a relationship with a friend or co-worker?</p> <div style="display: flex; justify-content: space-around; align-items: flex-start;"> <div style="text-align: center;">  1 Places relationship above the work objectives in all or most cases. </div> <div style="text-align: center;">  2 Sometimes struggles between work and relationships, but usually balances well. </div> <div style="text-align: center;">  3 Focuses on getting the job done but makes an effort not to hurt relationships. </div> <div style="text-align: center;">  4 </div> <div style="text-align: center;">  5 </div> </div>

Detail	Interview Guide
<p>Enjoys Problem-Solving Score: 77</p> <p><i>Description:</i> This scales represents a person's willingness to deal with complicated problems on a frequent or recurring basis. People with high scores prefer jobs that require mental challenge. Individuals with low scores may be intimidated when faced with complex or even simple issues on a regular basis. When jobs are routine or repetitive, people with low scores are usually a better fit.</p> <p><i>Interpretation:</i> The candidate's score in this area should contribute to enhanced overall job performance.</p> <p>Usually willing to analyze and formulate solutions to complex problems. Fairly confident in own ability to develop effective solutions. Sees frequent problem-solving as a core part of his or her job description, though may require prompting to take on a particularly difficult issue.</p>	<p>Describe some of the biggest on-the-job problems you have faced. How did you overcome them? How did you know they were solved?</p> <div style="display: flex; justify-content: space-around; align-items: flex-start;"> <div style="text-align: center;"> <p>★ 1</p> <p>Problems poorly described and actions taken unclear.</p> </div> <div style="text-align: center;"> <p>★ 2</p> </div> <div style="text-align: center;"> <p>★ 3</p> <p>Moderately complex problems. Simple or obvious actions taken.</p> </div> <div style="text-align: center;"> <p>★ 4</p> </div> <div style="text-align: center;"> <p>★ 5</p> <p>Described one or more complex problems. Actions taken are clear and relevant.</p> </div> </div>
<p>Expressive and Outgoing Score: 79</p> <p><i>Description:</i> There are many jobs that require outgoing personalities, such as selling, management, public relations, or jobs that require positive public contact. People who score high on expressiveness label themselves as outgoing and have many social contacts. Low scores indicate the person may not have the interest or willingness to assert themselves in social settings.</p> <p><i>Interpretation:</i> The candidate's score in this area should contribute to enhanced overall job performance.</p> <p>Likes to speak up in group meetings to insert or advocate new ideas. Enjoys asserting his or her own ideas among others.</p>	<p>Can you describe a time when you worried you were being too forthright or outspoken during a discussion among your friends or co-workers?</p> <div style="display: flex; justify-content: space-around; align-items: flex-start;"> <div style="text-align: center;"> <p>★ 1</p> <p>Frequently worries because always seems to be the most active.</p> </div> <div style="text-align: center;"> <p>★ 2</p> </div> <div style="text-align: center;"> <p>★ 3</p> <p>Occasionally worries but not very often.</p> </div> <div style="text-align: center;"> <p>★ 4</p> </div> <div style="text-align: center;"> <p>★ 5</p> <p>Rarely worries because knows when to back off beforehand.</p> </div> </div>

Detail	Interview Guide
<p>Innovative and Creative Score: 69</p> <p><i>Description:</i> This scale indicates the degree to which the person considers themselves capable of formulating original approaches to problems and other work challenges. Individuals who score high on this scale are comfortable with jobs that require them to analyze situations and/or data, and use their imagination to identify alternative approaches to evaluate each to select the most effective solution. Lower scoring individuals prefer to follow a more cookie-cutter or pre-defined approach to dealing with a specific problem. When organizations expect their people to continually generate new and better ways of producing work, it is a good idea to hire people who share this interest.</p> <p><i>Interpretation:</i> The candidate's score in this area should contribute to enhanced overall job performance.</p> <p>Sees him or herself as moderately creative. Capable of generating novel or original solutions to issues or problems with a small amount of prompting. Confident in the use of his or her imagination.</p>	<p>What is the most creative solution you have ever come up with? What were the circumstances, and why do you think it was creative?</p> <div style="display: flex; justify-content: space-around; align-items: flex-start;"> <div style="text-align: center;"> 1 Idea does not demonstrate creativity or is not related to the problem. No problem described. </div> <div style="text-align: center;"> 2 Moderately creative idea or only partially related to problem. </div> <div style="text-align: center;"> 3 Both problem and use of creativity well described and related to one another. </div> <div style="text-align: center;"> 4 </div> <div style="text-align: center;"> 5 </div> </div>
<p>Exhibits a Positive Work Attitude Score: 68</p> <p><i>Description:</i> For some people, work is a second-place activity. That is, given a decision to take either personal time or go to work, low scorers will choose time off. Low job priority could indicate a 9 to 5 mentality.</p> <p><i>Interpretation:</i> The candidate's score in this area should contribute to enhanced overall job performance.</p> <p>Usually expects to receive both financial and personal rewards in exchange for solid and consistent effort on the job. Enjoys most work activities and is willing to put in extra effort when warranted or requested.</p>	<p>How do you feel having a regular job and going to work? Is it something you enjoy? Why or why not?</p> <div style="display: flex; justify-content: space-around; align-items: flex-start;"> <div style="text-align: center;"> 1 Views work as a means of income only. Does not enjoy. Does not care about professional reputation. </div> <div style="text-align: center;"> 2 Likes work but doesn't truly enjoy it. Balances priority and energy with other obligations. </div> <div style="text-align: center;"> 3 </div> <div style="text-align: center;"> 4 </div> <div style="text-align: center;"> 5 Considers work a key priority in life. Report Preparation Notes

- Hiring decisions should never be based on a single source of information. The most effective use of this assessment report is as a part of a multi-faceted program of candidate evaluation that includes resume review, interviews, and reference checks.
- Overall vs Percentiles Scores: The overall score reflects the success in the test, based on the mean (average) and standard deviation of the test scores. The percentile score reflects the percentage of test-takers who scored equal or below this overall score. We recommend you use the Overall Score as your primary evaluation criteria. However, percentile scores can often be useful in comparing specific candidates against one another and with a group, such as for test takers in a certain organization or within a certain account.
- Note that comparison information is calculated based on completed instances of this assessment at that time the assessment is scored. As additional instances are completed, the comparative data may change. You can always update a report to the current values by clicking on "Recalculate Percentiles" within the online results viewing pages at www.hravatar.com.
- Most competency scores are norm-based, which means that they can be interpreted in terms of their distance from the average or mean score. For all scales, a score equal to the mean receives a score of 65 and scores above and below this value are set so that a score change of 15 equals one standard deviation.
- For linear competencies, higher is better across the entire scale. For these scales a score between 65 and 80 (light green) represents 0 to 1 standard deviation above the mean and a score above 80 (dark green) represents more than one standard deviation above the mean. Similarly, a score of 50 - 65 (yellow) represents 0 to 1 standard deviation below the mean, while a score of 35 - 50 (orange) equates to 1 to 2 standard deviations below the mean, and a score below 35 represents more than 2 standard deviations below the mean.
- For non-linear competencies, scores in the middle are more desirable. For these scales a score between 50 and 80 (dark green) represents scores that are within 1 standard deviation of the mean, scores between 80 and 95 and scores between 35 and 50 (yellow) represent scores that are 1 to 2 standard deviations above or below the mean, and scores above 95 or below 35 (red) represent scores that are more than 2 standard deviations above or below the mean.
- This assessment makes use of data from the Occupational Information Network (O*NET), which is funded by the U.S. Federal Government - U.S. Department of Labor/Employment and Training Administration (USDOL/ETA) - as a primary source of occupational information. The O*NET database contains information on hundreds of standardized and occupation-specific descriptors that are continually updated by ongoing research. These data are used in preparing descriptive information as well as setting relative weights between competencies used in calculating the overall score. For additional information about O*NET, visit <http://www.onetcenter.org>.

Score Calculation Detail

The following table provides a summary of how the overall score was calculated from the individual competency scores. Competency scores are calculated on a 0-100 scale by first calculating a Z statistic based on test-taker responses and then transforming the Z value to a scale with target mean and standard deviation. Certain competencies have a normal score distribution where it is best to be closest to the mean. For these competencies we modify the Z statistic by multiplying its absolute value by minus 1 for the overall score calculation. Next, to calculate the overall score, a weighted average of all modified competency Z statistics is computed and this weighted average is itself transformed to a Z statistic, which is then transformed to a score with the same target mean and standard deviation. Finally outlier scores are adjusted if they are below 0 or above 100.
