Assessment Overview

This assessment provides scores for a number of important factors and competencies that are related to success on the job. Scores are presented based on their potential impact on job performance.

Scores are presented individually on a scale of 0-100. In most cases, including the overall score, higher scores represent higher expected job performance. However, for some competencies, either extreme low or extreme high scores indicate a risk of lower performance. Refer to the interpretation section of each competency for additional information.

Individual competency scores are also combined into a single overall score. Please note that individual competencies are weighted differently, depending on their type, and on fine adjustments based on data from the US Government's Occupational Data Network (O*Net).

Each competency measured includes one or more suggested interview questions, in an easy-to-use format. These questions should be used for additional probing, especially when the score shows an area of relative weakness.

Some of the competencies measured evaluate preferences for doing (or not doing) specific activities. Scores for these competencies can be used to evaluate job-fit.

We wish to emphasize that the data contained in this report should be used as part of a comprehensive process for evaluating job candidates. Additional data should include in-person interviews, job tryouts, resume review, and background checks.

Attention to Detail

Score: 86

Description:

This scale represents thoroughness, accuracy, and being concerned for all areas involved no matter how insignificant. Individuals who demonstrate high Attention to Detail produce work products that are consistently accurate and require little checking. They rarely forget schedule commitments or overlook even the smallest details.

Interpretation:

High scores in this area correlate with superior performance for many jobs.

Able to achieve a high degree of thoroughness and accuracy in a work task. Concerned for all areas involved. Work products require little or no review or checking to maintain consistency.

Give me an example of a time you discovered an error that had been overlooked by either you or someone you were working with. What did you do? What was the outcome?

1

Unclear or careless example. Can't describe what was overlooked. No action.

2

Moderately clear example. Some concern for details. Direct but passive action.

3

4

Very detailed. Concern for all relevant components. Clear, proactive actions.

5

Analytical Thinking

Score: 97

Description:

This scale indicates the capacity to think in a thoughtful, discerning way, to solve problems, utilize resources, and analyze data. Individuals who demonstrate high amounts of analytical thinking are able to recognize patterns rapidly, navigate through problems, and resolve difficult problems systematically.

Interpretation:

High scores in this area correlate with superior performance for many jobs.

Able to think in a thoughtful, discerning way. Can often solve difficult problems, plan many-featured tasks and projects, organize multiple resources, and analyze complex data. Able to quickly recall and use information when needed or appropriate.

Tell me about a complex problem, situation, or planning task you had to deal with. What were the challenges, and how did you overcome them?

1

Example lacks complexity. Data seeking is limited, analysis may be lacking, actions unclear, not relevant, or ineffective.

2

Example is moderately complex. Shows some analytical thinking and problem solving. Actions have mixed or limited effectiveness.

3

4

Example shows complexity. Thorough investigation of all areas that might affect the decision. Actions are clear, relevant, and effective.

5

Personality Characteristics Detail

This section contains a list of personality characteristics that are frequently associated with job performance. Remember, these are not skills and do not indicate the ability to do a job. Rather, they can be used to evaluate the candidate's fit with the general needs of the job and the organizational culture. Sample interview questions are provided to gather more information.

Detail
Interview Guide
Adaptable

Score: 76

Description:

This scale reflects how accepting a person is of frequent or substantial changes in his or her job requirements. Changing work requirements usually cause stress and put pressure on an individual to adapt. High scorers usually thrive under changing work conditions, while low scorers may burn out or become paralyzed.

Interpretation:

The candidate's score in this area should contribute to enhanced overall job performance.

Prefers a dynamic work environment. Able to remain focused and positive in times of significant workplace change. Fairly easy-going and relaxed.

Describe a time at work or school when things were changing so fast it was hard to stay focused. How did you adjust to it?

1

Enjoyed the chaos of fast change. Became disinterested or negative and waited for things to calm down.

2

Did best but felt paralyzed and unable to work effectively.

3

4

Experienced higher anxiety but tried to deal with changes in a positive way. Stayed focused.

5

Would you rather work in a job where the work is predictable or one where activities are constantly changing? Why?

1

Becomes paralyzed by change. Or disregards the change and continues same path.

2

Resistant and fearful of change, or appears to live for change.

3

4

Comfortable with change, though feels some stress or anxiety. Usually able to stay focused.

5

Interview Guide
Seeks Perfection

Score: 87

Description:

This scale indicates a person's desire for accuracy. People with high perfection scores are committed to meeting or exceeding standards for quality and take pride in the accuracy of their work. People with too little perfectionism may be sloppy and unconcerned with quality.

Interpretation:

The candidate's score in this area should contribute to enhanced overall job performance.

Highly intent on achieving perfection in work products and commitments. Willing to do whatever it takes to achieve the desired standard of excellence. Takes pride in having a reputation for quality.

Can you describe a time when you were trying to finish a project or task but your boss made you stop before you felt it was ready?

1

Frequently cut short by boss because standards are too high.

2

Sometimes cut short but not often.

3

4

Rarely cut off because has a good sense of what is good enough.

5

When you perform a task, how do you decide when it's good enough to consider it completed or 'ready' for the customer?

1

No emphasis on quality.

2

Balances quality with other constraints.

3

4

Insists on a high degree of quality before releasing work.

5

Corporate Citizenship

Score: 10

Description:

This scale indicates the degree to which an individual's behavior embraces the spirit of an organization's mission, objectives, and strategy. High scorers project an attitude characterized by cooperation, trust, and openness. Low scorers often question the motives behind decisions. They may withhold information, display hostility, be defensive, or do just enough to get by.

Interpretation:

The candidate's score in this area indicates risk of a negative impact on performance for some jobs. Additional probing is strongly recommended.

Distrusts the organization and management. Frequently assumes new ideas or changes will have a negative individual impact. Can be defensive regarding his or her own work, or show hostility towards management or company policies.

How do you feel about being part of an organization? Do you think most organizations have their employees' best interests at heart or do you have to always watch out for yourself?

1

Distrusts organizational motives. Feels the need to look out for self.

2

Supports organization but is wary of being taken advantage of.

3

4

Embraces organizational membership. Believes in organizational mission.

5

Interview Guide

Competitive

Score: 94

Description:

This scale indicates the degree to which an individual is driven by a desire to impress their leaders and exceed their peers. Being competitive can either be damaging or useful, depending on the job. Competitive people spend much of their time thinking about themselves and the impact decisions may have on them, and their actions are often guided by these thoughts, which can either provide the drive needed to achieve a goal, or can damage the ability of a team to work together. In general, high scorers perform well in sales and related jobs.

Interpretation:

The candidate's score in this area should contribute to enhanced overall job performance.

Highly motivated by challenging goals, financial rewards, and/or recognition, and willing to work very hard to succeed. Very focused on personal achievement.

Describe a time when you had to place accomplishing your objectives above supporting your team. Why do you think it was justified?

1

Justified for selfish or personal reasons. Shows little remorse for failing to support team.

2

Shows remorse and feels action was a mistake.

3

4

Clearly justified or was forced to do so by superiors. Strongly regrets and wishes could change.

5

Would you describe yourself as competitive? Can you give me an example?

1

Non-competitive example, or doesn't show any consideration for others.

2

Example unclear. Doesn't address impact on others.

3

4

Competitive example that demonstrates drive and shows consideration of others.

5

Develops Relationships

Score: 65

Description:

This scale indicates a person's desire to cultivate relationships. High scorers seek opportunities to meet new people and get to know them well enough to form a lasting relationship. Low scorers tend to minimize interacting with people they don't know.

Interpretation:

The candidate's score in this area should contribute to enhanced overall job performance.

Actively cultivates relationships. Comfortable meeting new people and sensitive to how others feel. Maintains a broad social network, and uses it to achieve work objectives.

Can you describe a time when you had to choose between getting the job done or preserving a relationship with a friend or co-worker?

1

Places relationship above the work objectives in all or most cases.

2

Sometimes struggles between work and relationships, but usually balances well.

3

4

Focuses on getting the job done but makes an effort not to hurt relationships.

5

Describe your ideal job. Would it include working closely with others or would you prefer working mostly by yourself?

1

Prefers to work alone.

2

Cultivates relationships when opportunity arises or is necessary.

3

4

Enjoys cultivating relationships. Finds teamwork constructive.

5

Interview Guide

Enjoys Problem-Solving

Score: 79

Description:

This scales represents a person's willingness to deal with complicated problems on a frequent or recurring basis. People with high scores prefer jobs that require mental challenge. Individuals with low scores may be intimidated when faced with complex or even simple issues on a regular basis. When jobs are routine or repetitive, people with low scores are usually a better fit.

Interpretation:

The candidate's score in this area should contribute to enhanced overall job performance.

Usually willing to analyze and formulate solutions to complex problems. Fairly confident in own ability to develop effective solutions. Sees frequent problem-solving as a core part of his or her job description, though may require prompting to take on a particularly difficult issue.

Describe some of the biggest on-the-job problems you have faced. How did you overcome them? How did you know they were solved?

1

Problems poorly described and actions taken unclear.

2

Moderately complex problems. Simple or obvious actions taken.

3

4

Described one or more complex problems. Actions taken are clear and relevant.

5

Expressive and Outgoing

Score: 69

Description:

There are many jobs that require outgoing personalities, such as selling, management, public relations, or jobs that require positive public contact. People who score high on expressiveness label themselves as outgoing and have many social contacts. Low scores indicate the person may not have the interest or willingness to assert themselves in social settings.

Interpretation:

The candidate's score in this area should contribute to enhanced overall job performance.

Likes to speak up in group meetings to insert or advocate new ideas. Enjoys asserting his or her own ideas among others.

Tell me how you've acted in group meetings when you're discussing an important issue. Do you participate in the discussion, lead it, or wait until someone asks for your opinion?

1

Passive in actions with others. Timidly speaks when addressed. Prefers listening.

2

Speaks up and speaks out but doesn't need to be center of attention.

3

4

Likes to be center of attention. Speaks confidently and volunteers opinions constructively.

5

Can you describe a time when you worried you were being too forthright or outspoken during a discussion among your friends or co-workers?

1

Frequently worries because always seems to be the most active.

2

Occasionally worries but not very often.

3

4

Rarely worries because knows when to back off beforehand.

5

Detail Interview Guide

Innovative and Creative

Score: 95

Description:

This scale indicates the degree to which the person considers themselves capable of formulating original approaches to problems and other work challenges. Individuals who score high on this scale are comfortable with jobs that require them to analyze situations and/or data, and use their imagination to identify alternative approaches to evaluate each to select the most effective solution. Lower scoring individuals prefer to follow a more cookie-cutter or pre-defined approach to dealing with a specific problem. When organizations expect their people to continually generate new and better ways of producing work, it is a good idea to hire people who share this interest.

Interpretation:

The candidate's score in this area should contribute to enhanced overall job performance.

Sees him or herself as creative and capable of generating novel or original solutions to issues or problems. Open to free-form discussion of different ideas.

What is the most creative solution you have ever come up with? What were the circumstances, and why do you think it was creative?

1

Idea does not demonstrate creativity or is not related to the problem. No problem described.

2

Moderately creative idea or only partially related to problem.

3

4

Both problem and use of creativity well described and related to one another.

5

Exhibits a Positive Work Attitude

Score: 71

Description:

For some people, work is a second-place activity. That is, given a decision to take either personal time or go to work, low scorers will choose time off. Low job priority could indicate a 9 to 5 mentality.

Interpretation:

The candidate's score in this area should contribute to enhanced overall job performance.

Usually expects to receive both financial and personal rewards in exchange for solid and consistent effort on the job. Enjoys most work activities and is willing to put in extra effort when warranted or requested.

How do you feel having a regular job and going to work? Is it something you enjoy? Why or why not?

1

Views work as a means of income only. Does not enjoy. Does not care about professional reputation.

2

Likes work but doesn't truly enjoy it. Balances priority and energy with other obligations.

3

4

Considers work a key priority in life. Enjoys working and always applies best energy. Takes pride in work reputation.

5

Detail Interview Guide

Needs Structure

Score: 68

Description:

This scale indicates the degree to which a person prefers to work within an ordered environment, with well-defined tasks, activities, rules, processes and expectations. It also reflects the general thoroughness and care applied by the candidate when performing work tasks.

Interpretation:

The candidate's score in this area should contribute to enhanced overall job performance.

Follows rules consistently. Makes decisions thoughtfully. Usually follows through on commitments. Usually able to create and/or follow detailed plans.

Have you ever had to work in a job that had little or no structure or where no one told you what to do? What did or didn't you like about it?

1

Large mismatch between comfort with structure and structure level of intended job.

2

Some mismatch between comfort with structure and structure level of intended job.

3

4

Comfort with structure matches the structure level of the intended job.

5

What kind of job would you prefer: one in which you know exactly what you need to do each day or one in which you start each day with a blank slate and have to decide what to do based on circumstances? Why?

1

Prefers a dynamic, changing work environment.

2

Equally comfortable with well-defined and dynamic work environments.

3

4

Clear preference for defined tasks and activities.

5

Emotional Intelligence Detail

This section contains a list of emotional intelligence characteristics that indicate how tuned in a candidate is to his or her own emotions, and those of others, as well as the candidate's ability to control his or her behavior in light of the emotions he or she is experiencing. These traits can often impact performance in groups or teams. Sample interview questions are provided to gather more information.

Detail Interview Guide

Emotional Self-Awareness

Score: 65

Description:

Capacidad de identificar las reacciones de las personas en diversas situaciones, monitorear dichas reacciones e interpretarlas. Asimismo, capacidad de saber cómo actuar correcta y eficazmente en situaciones sociales.

Interpretation:

The candidate's score in this area should contribute to enhanced overall job performance.

Muestra un alto nivel de conciencia sobre sus propias reacciones emocionales, y entiende el efecto que éstas tienen sobre quienes le rodean. De igual manera, muestra un alto nivel de conciencia sobre lo que son los comportamientos adecuados en diversas situaciones. Es probable que sea eficaz para identificar sus emociones y adaptarlas a las normas sociales, lo que le facilita tener una buena interacción con clientes y compañeros de trabajo.

¿Qué tan consciente está usted de sus emociones? ¿Puede describir alguna situación en que esta característica le haya ayudado a tomar una mejor decisión?

1

No está en sintonía con sus propias emociones. Incapaz de mejorar sus decisiones mediante la concientización.

2

Cierta capacidad de sentir sus propias emociones y controlar sus decisiones.

3

4

Muy en sintonía con sus propias emociones. Capaz de mejorar sus decisiones mediante la concientización.

Emotional Self-Control

Score: 77

Description:

Capacidad de manejar la necesidad de satisfacer los anhelos y deseos propios, y de comportarse de manera restringida y controlada para garantizar que se dé una interacción agradable y eficaz con los demás.

Interpretation:

The candidate's score in this area should contribute to enhanced overall job performance.

Muestra una alta capacidad para autocontrolar sus deseos, lo que le permite mantener una perspectiva equilibrada en lo que se refiere a la gestión de riesgos, permanecer en calma bajo presión, e interactuar tranquilamente con los demás. Es probable que sea eficaz para establecer prioridades y mantenerse enfocado en sus metas a largo plazo, y que se relacione con los demás hasta el punto de que ello contribuya a construir relaciones de trabajo duraderas.

¿Es usted capaz de controlar sus propias acciones cuando se pone sensible?
¿Puede darme un ejemplo de cómo le ha ayudado tener autocontrol en el trabajo o en la escuela?

1

Incapaz de autocontrolarse ante emociones.

2

Cierta capacidad de resistir los impulsos ocasionados por las emociones y aplicar esta característica en situaciones laborales.

3

4

Capaz de detectar sus propias emociones y controlar sus reacciones en situaciones laborales o de negocios.

5

Empathy

Score: 76

Description:

Capacidad de sentir y comprender las emociones de los demás, identificarse con dichas emociones y ver las cosas desde la perspectiva de otras personas.

Interpretation:

The candidate's score in this area should contribute to enhanced overall job performance.

Muestra una alta capacidad para entender las necesidades emocionales de otras personas, solidarizándose con sus problemas y viendo las cosas desde la perspectiva de los demás. Es probable que muestre un alto nivel de comprensión y empatía para con clientes y compañeros de trabajo. Esta habilidad puede contribuir a fomentar la lealtad de los clientes, fortalecer las relaciones de trabajo y reducir los conflictos en el lugar de trabajo.

¿Se le facilita a usted identificarse con los sentimientos de los demás?
¿Podría darme un ejemplo de cómo le ha ayudado esta característica a superar una situación difícil en el trabajo o en la escuela?

1

Incapaz de sentir lo que sienten los demás. Incapaz de dar un ejemplo.

2

Cierta capacidad de sentir lo que sienten los demás. Su ejemplo muestra cierta capacidad de usar sus sentidos en el trabajo.

3

4

Capaz de relacionarse con otros y sentir lo que sienten los demás. Su ejemplo muestra que puede usar fácilmente sus sentidos en el trabajo.

Report Preparation Notes

- Hiring decisions should never be based on a single source of information. The most effective use of this assessment report is as a part of a multi-faceted program of candidate evaluation that includes resume review, interviews, and reference checks.
- Overall vs Percentiles Scores: The overall score reflects the success in the test, based on the mean (average) and standard deviation of the test scores. The percentile score reflects the percentage of test-takers who scored equal or below this overall score. We recommend you use the Overall Score as your primary evaluation criteria. However, percentile scores can often be useful in comparing specific candidates against one another and with a group, such as for test takers in a certain organization or within a certain account.
- Note that comparison information is calculated based on completed instances of this assessment at that time the assessment is scored. As additional instances are completed, the comparative data may change. You can always update a report to the current values by clicking on 'Recalculate Percentiles' within the online results viewing pages at www.hravatar.com.
- Most competency scores are norm-based, which means that they can be interpreted in terms of their distance from the average or mean score. For all scales, a score equal to the mean receives a score of 65 and scores above and below this value are set so that a score change of 15 equals one standard deviation.
- For linear competencies, higher is better across the entire scale. For these scales a score between 65 and 80 (light green) represents 0 to 1 standard deviation above the mean and a score above 80 (dark green) represents more than one standard deviation above the mean. Similarly, a score of 50 - 65 (yellow) represents 0 to 1 standard deviation below the mean, while a score of 35 - 50 (orange) equates to 1 to 2 standard deviations below the mean, and a score below 35 represents more than 2 standard deviations below the mean.
- This assessment makes use of data from the Occupational Information Network (O*NET), which is funded by the U.S. Federal Government - U.S. Department of Labor/Employment and Training Administration (USDOL/ETA) - as a primary source of occupational information. The O*NET database contains information on hundreds of standardized and occupation-specific descriptors that are continually updated by ongoing research. These data are used in preparing descriptive information as well as setting relative weights between competencies used in calculating the overall score. For additional information about O*NET, visit <http://www.onetcenter.org>.

Score Calculation Detail

The following table provides a summary of how the overall score was calculated from the individual competency scores. Competency scores are calculated on a 0-100 scale by first calculating a Z statistic based on test-taker responses and then transforming the Z value to a scale with target mean and standard deviation. Certain competencies have a normal score distribution where it is best to be closest to the mean. For these competencies we modify the Z statistic by multiplying its absolute value by minus 1 for the overall score calculation. Next, to calculate the overall score, a weighted average of all modified competency Z statistics is computed and this weighted average is itself transformed to a Z statistic, which is then transformed to a score with the same target mean and standard deviation. Finally outlier scores are adjusted if they are below 0 or above 100.
