

Your Customized Job Match Report

Prepared for: **Richard Wantsajob**
Prepared on: January 16, 2025

This report lists the job types with the highest degree of match to your unique combination of interests, experience, education, and other characteristics. These data are provided in a format intended to help you evaluate potential careers.

Note: This report does NOT provide any response, test scores, or other information regarding any specific job you have applied for. It only provides general information about job types that may be of interest to you.

Your Interests

Theme	Score (0-100)	Level of Interest
Realistic	90	
Conventional	85	
Investigative	60	
Enterprising	20	
Social	10	
Artistic	10	

Realistic

Your Score: 90

People with **Realistic** interests like to work with things and are assertive and competitive. They tend to focus on activities requiring motor coordination, skill and strength and prefer to work a problem through by doing something, rather than talking about it, or sitting and thinking about it. They are also drawn to concrete approaches to problem solving, rather than abstract theory and scientific and mechanical areas, rather than aesthetic ones.

Conventional

Your Score: 85

People with **Conventional** interests prefer to work with data and like rules and regulations and emphasize self-control. They like structure and order, and dislike unstructured or unclear work and interpersonal situations. They also value power and status.

Investigative

Your Score: 60

People with **Investigative** interests prefer to think and observe rather than act, and to organize and understand information rather than to persuade. They are also drawn to working with data and facts over working with people and feelings.

Enterprising

Your Score: 20

People with **Enterprising** interests like to work with people and data. They tend to be good talkers and use this skill to lead or persuade others. They are also drawn to high power situations, valuing power, money and status.

Social

Your Score: 10

People with **Social** interests like to work with people and seem to satisfy their needs in teaching or helping situations. They tend to be drawn more to seek close relationships with other people and are less apt to want to be really intellectual or physical.

Artistic

Your Score: 10

People with **Artistic** interests like to work with ideas and things. They tend to be creative, open, inventive, original, perceptive, sensitive, independent and emotional. They rebel against structure and rules and dislike tasks involving people or physical skills.

Job Zones

Your Job Zone: Job Zone One - Little or No Preparation Needed

Most job titles require some level of experience, training, and/or education before you can qualify for a job in that position. For instance, a surgeon may require many years of education and training, while a construction worker may require little or no prior experience or training.

A Job Zone is a group of occupations that are similar in:

- how much education people need to do the work.
- how much related experience people need to do the work.
- how much on-the-job training people need to do the work.

Our goal is to present you with jobs that BOTH match your interests AND your current experience, education or training.

Here's a summary of the five Job Zones:

Job Zone One: Little or No Preparation Needed

Education:	May require a high school diploma or GED certificate.
Related Experience:	Little or no previous work-related skill, knowledge, or experience is needed. For example, a person can become a waiter or waitress even if he/she has never worked before.
Job Training:	Usually requires a few days to a few months of training.

Job Zone Two: Some Preparation Needed

Education:	Usually requires a high school diploma or GED certificate.
Related Experience:	Some previous work-related skill, knowledge, or experience is usually needed. For example, a teller would benefit from experience working directly with the public.
Job Training:	Usually requires a few months to a year of training. May also require an apprenticeship.

Job Zone Three: Medium Preparation Needed

Education:	Usually requires training in a vocational school, related job experience, or specialized education after high school.
Related Experience:	Previous work-related skill, knowledge, or experience is required for these occupations. For example, an electrician must have completed three or four years of apprenticeship or several years of vocational training, and often must have passed a licensing exam, in order to perform the job.
Job Training:	Requires 1-2 years of formal and on-the-job training.

Job Zone Four: Considerable Preparation Needed

Education:	Usually requires a four-year bachelor's degree or significant related work experience.
Related Experience:	A considerable amount of work-related skill, knowledge, or experience is needed for these occupations. For example, an accountant must complete four years of college and work for several years in accounting to be considered qualified.
Job Training:	Usually requires several years of on-the-job training interspersed with periodic formal job-training courses.

Job Zone Five: Extensive Preparation Needed

Education:	Often requires an advanced college degree, such as a master's degree or Ph.D.
Related Experience:	Extensive skill, knowledge, and experience are needed for these occupations. Many require more than five years of experience. For example, surgeons must complete four years of college and an additional five to seven years of specialized medical training to be able to do their job.
Job Training:	Usually doesn't require specific training. Candidates are expected to have gained the necessary skills and knowledge from prior work experience.

Moderate (57%)

How do I use this information?

Didn't like any of your job matches? It often helps to know how well your interests align with different types of jobs. Job categories are broad groups of related jobs that can guide you in choosing a direction for your career. If a category matches highly with you and your interests, you should expect to enjoy most of the jobs in that category. Additionally, since your interests are aligned, you will probably excel at that job and have a stable, rewarding career over the long-term.

Remember that the ranked categories shown here are based on what you appear to be interested in. They are only guidelines and they are not based on your skills and abilities. You may still need to obtain training to pursue a job within any of these categories. But experience has shown that when your work is aligned with your interests, you are happier and more productive at work.

How we created this report

We used your responses to questions in the surveys and assessments listed above in conjunction with data provided by the U.S. Federal Government Occupational Information Network (O*Net) and the U.S. Department of Labor's Bureau of Labor Statistics. O*Net provides up-to-date information about nearly 1,000 different types of jobs. Data available includes knowledge, skills, abilities, tasks, work styles, and many other features associated with each job, such as experience level and education level requirements. The O*Net database is updated frequently and has become the world's foremost compendium of job descriptive data. We use the Bureau of Labor Statistics (BLS) database for information about the number of actual jobs of various types and average annual wages.

HR Avatar uses the responses in your surveys and assessments to calculate your degree of each relevant feature or character trait. We then match these calculated values with values in the O*Net database to determine which jobs have the highest overall match.

Why aren't there any test scores?

There are no right or wrong answers to most of the questions used to generate this report. Therefore, they don't really have scores. However, they are used to estimate your degree of interest in various classes of jobs, such as jobs that require artistic ability or social skills. When an actual pre-employment assessment is used in conjunction with the interest and experience survey, your scores are kept confidential and are only shared with the sponsoring employer.
