

Candidate: **Betty Penske**
Assessment: Basic Cognitive & Behavioral Assessment - Entry Level Version (Short)
Completed: May 24, 2022
Prepared for: Susan Bookman

Test Results and Interview Guide

The Basic Cognitive & Behavioral Assessment - Entry Level Version (Short) assessment measures key factors related to high performance and tenure in this job. Attribute types measured vary by test, but can include cognitive ability, skills, knowledge, personality characteristics, emotional intelligence, and past behavioral history. This report includes a one page summary, followed by detailed results with an embedded interview guide. Note that these results should always be used as a part of a balanced candidate selection process that includes independent evaluation steps, such as interviews and reference checks.

Overall

Competency Summary

Competency	Score	Interpretation
Cognitive Abilities (relates to job performance, problem-solving, ability to learn, etc.)		
Analytical Thinking and Attention to Detail	97	
Behavioral History (relates to performance and turnover)		
History Survey - Performance	98	
History Survey - Tenure	84	

Comparison

Percentile scores indicate how the candidate compares to other test-takers within various groups. The candidate scored equal to or better than the fraction of test-takers indicated by the percentile.

Test-Taker Group	Percentile	0	10	20	30	40	50	60	70	80	90	100	
Global	95th												
United States	79th												
HR Avatar Data	87th												

Assessment Overview

This assessment provides scores for a number of important factors and competencies that are related to success on the job. Scores are presented based on their potential impact on job performance.

Scores are presented individually on a scale of 0-100. In most cases, including the overall score, higher scores represent higher expected job performance. However, for some competencies, either extreme low or extreme high scores indicate a risk of lower performance. Refer to the interpretation section of each competency for additional information.

Individual competency scores are also combined into a single overall score. Please note that individual competencies are weighted differently, depending on their type, and on fine adjustments based on data from the US Government's Occupational Data Network (O*Net).

Each competency measured includes one or more suggested interview questions, in an easy-to-use format. These questions should be used for additional probing, especially when the score shows an area of relative weakness.

Some of the competencies measured evaluate preferences for doing (or not doing) specific activities. Scores for these competencies can be used to evaluate job-fit.

We wish to emphasize that the data contained in this report should be used as part of a comprehensive process for evaluating job candidates. Additional data should include in-person interviews, job tryouts, resume review, and background checks.

Detail

Candidate: **Betty Penske**, bettypenske@yourcompany.org
 Assessment: Basic Cognitive & Behavioral Assessment - Entry Level Version (Short)
 Authorized: May 24, 2022, by Susan Bookman, HR Avatar Data Collection Account, sue.bookman@richardson.biz
 Started: May 23, 2022 at 9:26:33 PM EST
 Completed: May 23, 2022 at 9:26:33 PM EST
 Overall Score: 95

Cognitive Abilities Detail

This section contains a list of job-related cognitive abilities that have been evaluated in a job-like context using HR Avatar's simulation technology. Studies have demonstrated that cognitive abilities are highly correlated with job performance for many jobs. Abilities also correlate with problem-solving and the ability to learn quickly.

Continued on next page.

Detail	Interview Guide
<p>Analytical Thinking and Attention to Detail Score: 97</p>  <p><i>Description:</i> This scale represents thoroughness, accuracy, and being concerned for all areas involved no matter how insignificant. Individuals who demonstrate high Attention to Detail produce work products that are consistently accurate and require little checking. They rarely forget schedule commitments or overlook even the smallest details.</p> <p><i>Interpretation:</i> High scores in this area correlate with superior performance for many jobs.</p> <p>Able to achieve a high degree of thoroughness and accuracy in a work task. Concerned for all areas involved. Work products require little or no review or checking to maintain consistency.</p>	<p>Can you give me an example of where your attention to detail or your thoughtful analysis of a situation helped make a project successful?</p> <p style="text-align: center;">  1  2  3  4  5 </p> <p>Poor example. Does not show attention to detail or analytical ability. Moderately relevant or impactful example. Strongly relevant and clear example.</p> <hr/> <p>How do you handle a situation when you've messed up due to overlooking an important detail?</p> <p style="text-align: center;">  1  2  3  4  5 </p> <p>Is unable to handle the situation. Demonstrates the ability to admit to their error and quickly fix the error, but didn't put preventative systems in place. Demonstrates the ability to admit to their error, put preventative systems in place and quickly fix the error.</p>

Behavioral History Detail

This section evaluates answers the candidate gave concerning his or her work-related history. Studies often show that a candidate's past behavior often indicates his or her future behavior. Potential caution areas (if any) are specified in each detail section.

Detail	Interview Guide
<p>History Survey - Performance Score: 98</p>  <p><i>Description:</i> Evaluates elements of the candidate's past work and education history to identify indications of high or low performance potential.</p> <p><i>Interpretation:</i> The candidate's score indicates past behaviors that contribute to high job performance.</p> <p>Exhibits past behaviors and achievements that are likely to enhance job performance.</p> <p>The following potential performance risk areas were identified:</p> <ul style="list-style-type: none"> • Below average productivity history • Below average performance reviews <p>Further probing is recommended for each of these items.</p>	<p>How does your work compare with your peers? Do you produce more or less? How do you know?</p> <p style="text-align: center;">  1  2  3  4  5 </p> <hr/> <p>What kind of feedback have you received about your performance from your managers and your peers?</p> <p style="text-align: center;">  1  2  3  4  5 </p>

Detail	Interview Guide
<p>History Survey - Tenure Score: 84</p>  <p><i>Description:</i> Evaluates a candidate's past employment history and related factors for indications of potentially low job tenure.</p> <p><i>Interpretation:</i> The candidate's score indicates past behaviors that contribute to high job performance.</p> <p>Exhibits behaviors likely to result in longer than average job tenure.</p> <p>The following potential performance risk areas were identified:</p> <ul style="list-style-type: none"> • Frequent job changes • Potential long commute <p>Further probing is recommended for each of these items.</p>	<p>Review your last few jobs with me, explaining why you left the old job and what attracted you to the new one.</p> <p style="text-align: center;"> ★ ★ ★ ★ ★ 1 2 3 4 5 </p> <hr/> <p>What is the longest distance you have had to commute to work? What did you do during the commute? How long did you keep that job?</p> <p style="text-align: center;"> ★ ★ ★ ★ ★ 1 2 3 4 5 </p>

Identity Confirmation Photos

The following photos of the candidate and any identification were uploaded during the assessment session.

Photo Analysis Results

- Risk:	Medium risk of cheating based on image inconsistencies
- Percent match among processed faces	100%
- Total images processed	17
- Total images with valid faces	14 (82%)
- Total pairs of faces compared	13
- Pairs in which faces matched	13 (100%)

Top Job Title Matches

The candidate also completed an interest/experience survey. The results from this survey were used in conjunction with the competency scores in this assessment to generate a report of jobs that best match this candidate's unique blend of abilities, interests, education, and experience. The results are summarized in the table below. These results were used to prepare a separate report that was sent to the candidate.

Rank	Job Title	Interests Match	Competencies Match	Education and Experience Match	Overall Match
1	Adhesive Bonding Machine Operators and Tender	72%	86%	99%	Strong
2	Sawing Machine Setters, Operators, and Tenders, Wood	69%	83%	71%	Medium
3	Coating, Painting, and Spraying Machine Setters, Operators, and Tender	69%	83%	72%	Medium
4	Packaging and Filling Machine Operators and Tender	67%	86%	72%	Medium
5	Extruding, Forming, Pressing, and Compacting Machine Setters, Operators, and Tender	67%	83%	72%	Medium
6	Heat Treating Equipment Setters, Operators, and Tenders, Metal and Plastic	69%	88%	58%	Medium
7	Cutting, Punching, and Press Machine Setters, Operators, and Tenders, Metal and Plastic	69%	86%	59%	Medium
8	Print Binding and Finishing Worker	68%	82%	69%	Medium

Minimum Qualification Guidelines - from O*Net

The following are suggestions from O*Net, the United States government's occupational information network, regarding prerequisites for this job type.

Item	
Educational Achievement	High School
Job-Related Training	Less than 6 Months
Job-Related Experience	Less Than 1 Year

Report Preparation Notes

- Hiring decisions should never be based on a single source of information. The most effective use of this assessment report is as a part of a multi-faceted program of candidate evaluation that includes resume review, interviews, and reference checks.
- Overall vs Percentiles Scores: The overall score reflects the success in the test, based on the mean (average) and standard deviation of the test scores. The percentile score reflects the percentage of test-takers who scored equal or below this overall score. We recommend you use the Overall Score as your primary evaluation criteria. However, percentile scores can often be useful in comparing specific candidates against one another and with a group, such as for test takers in a certain organization or within a certain account.
- Note that comparison information is calculated based on completed instances of this assessment at that time the assessment is scored. As additional instances are completed, the comparative data may change. You can always update a report to the current values by clicking on "Recalculate Percentiles" within the online results viewing pages at www.hravatar.com.
- Most competency scores are norm-based, which means that they can be interpreted in terms of their distance from the average or mean score. For all scales, a score equal to the mean receives a score of 65 and scores above and below this value are set so that a score change of 15 equals one standard deviation.
- For linear competencies, higher is better across the entire scale. For these scales a score between 65 and 80 (light green) represents 0 to 1 standard deviation above the mean and a score above 80 (dark green) represents more than one standard deviation above the mean. Similarly, a score of 50 - 65 (yellow) represents 0 to 1 standard deviation below the mean, while a score of 35 - 50 (orange) equates to 1 to 2 standard deviations below the mean, and a score below 35 represents more than 2 standard deviations below the mean.
- This assessment makes use of data from the Occupational Information Network (O*NET), which is funded by the U.S. Federal Government - U.S. Department of Labor/Employment and Training Administration (USDOL/ETA) - as a primary source of occupational information. The O*NET database contains information on hundreds of standardized and occupation-specific descriptors that are continually updated by ongoing research. These data are used in preparing descriptive information as well as setting relative weights between competencies used in calculating the overall score. For additional information about O*NET, visit <http://www.onetcenter.org>.
- O*Net Standard Occupational Code (SOC) Used: 51-9195.00
- O*Net Version: 25.1
- Sim ID: 6730-6, Key: 0-0, Rpt: 13, Prd: 2773, Created: 2022-05-24 02:26 UTC
- UA: Mozilla/5.0 (Windows NT 6.3; Trident/7.0; Touch; rv:11.0) like Gecko

Score Calculation Detail

The following table provides a summary of how the overall score was calculated from the individual competency scores. Competency scores are calculated on a 0-100 scale by first calculating a Z statistic based on test-taker responses and then transforming the Z value to a scale with target mean and standard deviation. Certain competencies have a normal score distribution where it is best to be closest to the mean. For these competencies we modify the Z statistic by multiplying its absolute value by minus 1 for the overall score calculation. Next, to calculate the overall score, a weighted average of all modified competency Z statistics is computed and this weighted average is itself transformed to a Z statistic, which is then transformed to a score with the same target mean and standard deviation. Finally outlier scores are adjusted if they are below 0 or above 100.

Competency	Score	How applied to overall	Score Value Used	Weight (%)
Analytical Thinking and Attention to Detail	97.1908	Z-Statistic	2.1460	70.9091
History Survey - Performance	98.5422	Z-Statistic	2.2361	14.5455
History Survey - Tenure	84.5103	Z-Statistic	1.3007	14.5455

Weighted Average of Competency Z-Scores:	2.0362
Mean applied to Raw Weighted Avg:	0.0000
Standard Deviation applied to Raw Weighted Avg:	1.0000
Normalized Raw Score:	2.0362
Mean:	65.0000
Standard Deviation Used:	15.0000
Final Overall Score:	95.5429
