

Candidate: **Betty Penske**
Assessment: Work Productivity Index - General
Completed: October 19, 2021
Prepared for: Susan Bookman

Test Results and Interview Guide

The Work Productivity Index - General assessment measures key factors related to high performance and tenure in this job. Attribute types measured include cognitive ability, skills, knowledge, personality characteristics, emotional intelligence, and past behavioral history. This report includes a one page summary, followed by detailed results with an embedded interview guide. Note that these results should always be used as a part of a balanced candidate selection process that includes independent evaluation steps, such as interviews and reference checks.

Overall

Candidate	Score	Interpretation
Betty Penske bettypenske@yourcompany.org Work Productivity Index - General October 19, 2021 Summary: High Performance Potential	87	

Key

- ▼ Candidate Score
- Higher Risk
- Lower Risk

Competency Summary

Competency	Score	Interpretation
Cognitive Abilities (relates to job performance, problem-solving, ability to learn, etc.)		
Analytical Thinking and Attention to Detail	92	
Skills/Knowledge (relates to immediate readiness)		
Audio/Video Interview Questions	77	
Artificial Intelligence (AI)-Derived Traits		
Voice-Derived Performance Potential	83	

Comparison

Percentile scores indicate how the candidate compares to other test-takers within various groups. The candidate scored equal to or better than the fraction of test-takers indicated by the percentile.

Test-Taker Group	Percentile	0	10	20	30	40	50	60	70	80	90	100	
Global	87th												
United States	72nd												
HR Avatar Data	80th												

Assessment Overview

This assessment provides scores for a number of important factors and competencies that are related to success on the job. Scores are presented based on their potential impact on job performance.

Scores are presented individually on a scale of 0-100. In most cases, including the overall score, higher scores represent higher expected job performance. However, for some competencies, either extreme low or extreme high scores indicate a risk of lower performance. Refer to the interpretation section of each competency for additional information.

Individual competency scores are also combined into a single overall score. Please note that individual competencies are weighted differently, depending on their type, and on fine adjustments based on data from the US Government's Occupational Data Network (O*Net).

Each competency measured includes one or more suggested interview questions, in an easy-to-use format. These questions should be used for additional probing, especially when the score shows an area of relative weakness.

Some of the competencies measured evaluate preferences for doing (or not doing) specific activities. Scores for these competencies can be used to evaluate job-fit.

We wish to emphasize that the data contained in this report should be used as part of a comprehensive process for evaluating job candidates. Additional data should include in-person interviews, job tryouts, resume review, and background checks.

Detail

Candidate: **Betty Penske**, bettypenske@yourcompany.org
 Assessment: Work Productivity Index - General
 Authorized: October 19, 2021, by Susan Bookman, HR Avatar Data Collection Account, sue.bookman@richardson.biz
 Started: October 18, 2021 at 7:12:50 PM EST
 Completed: October 18, 2021 at 7:12:50 PM EST
 Overall Score: 87

Cognitive Abilities Detail

This section contains a list of job-related cognitive abilities that have been evaluated in a job-like context using HR Avatar's simulation technology. Studies have demonstrated that cognitive abilities are highly correlated with job performance for many jobs. Abilities also correlate with problem-solving and the ability to learn quickly.

Detail	Interview Guide
<p>Analytical Thinking and Attention to Detail Score: 92</p> <p><i>Description:</i> This scale represents thoroughness, accuracy, and being concerned for all areas involved no matter how insignificant. Individuals who demonstrate high Attention to Detail produce work products that are consistently accurate and require little checking. They rarely forget schedule commitments or overlook even the smallest details.</p> <p><i>Interpretation:</i> High scores in this area correlate with superior performance for many jobs.</p> <p>Able to achieve a high degree of thoroughness and accuracy in a work task. Concerned for all areas involved. Work products require little or no review or checking to maintain consistency.</p>	<p>Can you give me an example of where your attention to detail or your thoughtful analysis of a situation helped make a project successful?</p> <p style="text-align: center;"> ★ ★ ★ ★ ★ </p> <p style="text-align: center;"> 1 2 3 4 5 </p> <p>Poor example. Does not show attention to detail or analytical ability.</p> <p>Moderately relevant or impactful example.</p> <p>Strongly relevant and clear example.</p>

Knowledge and Skills Detail

This section contains a list of job-related knowledge areas and skills that have been evaluated. Low scores in these areas often indicate that additional learning may be required before top performance can be achieved.

Detail	Interview Guide
<p>Audio/Video Interview Questions Score: 77</p>  <p><i>Description:</i> A customized series of open-ended video-response questions were asked. Results include the video responses themselves for viewing, as well as transcripts, text analysis, and voice analysis. Text analysis includes vocabulary and grammar. Voice analysis includes perceived voice intonation and other speaking quality factors.</p> <p><i>Interpretation:</i> The candidate's score in this area should contribute to enhanced overall job performance.</p> <p>Text and voice analysis indicates above average quality to open-ended responses.</p> <p>Please see below to view the converted text from the voice sample that was collected.</p>	<p>Tell me about how your background and experience have prepared you for this kind of work.</p> <div style="display: flex; justify-content: space-around; align-items: center;"> <div style="text-align: center;">  1 Poorly structured answer. Not convincing. </div> <div style="text-align: center;">  2 Moderately persuasive. Acceptable logic and structure. </div> <div style="text-align: center;">  3 Convincing answer. Solid logic and structure. </div> <div style="text-align: center;">  4 </div> <div style="text-align: center;">  5 </div> </div>

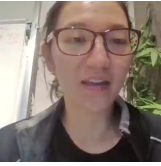

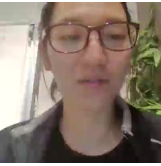

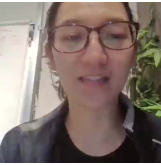

Artificial Intelligence (AI)-Derived Traits Detail

This section contains a list of traits and characteristics measured through artificial intelligence using machine learning. These traits can often impact performance in group or team environments as well as individual work environments. Sample interview questions are provided to gather more information.

Detail	Interview Guide
<p>Voice-Derived Performance Potential Score: 83</p>  <p><i>Description:</i> Experimental: Based on artificial intelligence (AI) that evaluates how a candidate's voice is perceived by others. Preliminary studies have shown that candidates who sound confident and assertive often correlate with high performance, while candidates who come across as detached often exhibit lower performance. Please note that research regarding this measurement is ongoing and should not be used as the basis for employment decisions at this point.</p> <p><i>Interpretation:</i> The candidate's score in this area should contribute to enhanced overall job performance.</p> <p>Experimental: Perceived voice indicates high performance potential.</p>	

Audio/Video Responses

During the assessment, the candidate was asked to answer open-ended answer to one or more questions by either audio or video. If the candidate did not have the ability to upload audio or video they were asked to write their responses. The text of their responses as well as any included analysis of their speaking or text is provided below. Additionally, you can click on the links below (or cut and past into a web browser) to view or listen to their response directly.

Question	Response
<p>Introduce yourself. Start with your name and add in whatever you'd like to say.</p>	<p>hi my name is Ana Reyes and I'm currently working as an administrative occur in a company located here in Makati so I've been working in the company for a year-and-a-half doing pretty much filing documents and taking care of documentation for the whole company</p>  <p>View this video recording: https://www.hravatar.com/ta/avpb/0/9242</p>
<p>Why are you leaving your current position?</p>	<p>so basically the reason why I want to leave my current position is because I would describe myself as a people person so in my current role I do not get to interact with a lot of people and so I find the job a little bit boring and unfulfilling</p>  <p>View this video recording: https://www.hravatar.com/ta/avpb/0/9243</p>
<p>Why do you think you would succeed in the job you are applying for?</p>	<p>so I think I would succeed in the job that I'm applying for because I have a lot of energy and since I like working with a lot of people I think that our role in sales will also allow me to do what I really enjoy Winchester interact with all different kinds of people and also to learn in the process</p>  <p>View this video recording: https://www.hravatar.com/ta/avpb/0/9244</p>
<p>Why do you want to do the job you are applying for?</p>	<p>so I mentioned earlier I am really interested in a sales job first of all because I like working with people and I think that I am convincing I also like the company that I'm applying for it has a lot of it snowing in the market and it looks like a really young and fun company</p>  <p>View this video recording: https://www.hravatar.com/ta/avpb/0/9245</p>

Question	Response
<p>Describe an achievement you are proud of. What did you have to accomplish and how did you do it?</p>	<p>so I think one of the biggest achievements that I have experience in my work so far is that I was able to help the accounting team a project of bears because I kept track of all the documents and I coordinated with different teams so that's all there are requirements were submitted so because of that are the accounting team was actually able to finish their project ahead of time</p> <div data-bbox="711 365 870 527" data-label="Image"> </div> <p data-bbox="911 407 1341 453">View this video recording: https://www.hravatar.com/ta/avpb/0/9246</p>
<p>Where do you see yourself five years from now?</p>	<p>so five years from now I honestly see myself in a managerial position I'm also aspiring to find a job abroad also working in sales</p> <div data-bbox="711 646 870 808" data-label="Image"> </div> <p data-bbox="911 688 1341 735">View this video recording: https://www.hravatar.com/ta/avpb/0/9247</p>
<p>Talk about anything you would like to add that might be helpful in our evaluation.</p>	<p>so I would also like to add that I have that when I was in college I was the president of an organization and one of the biggest projects which I handle it had to do with selling in order to raise funds so we were actually able to hit our Target really easily because of my efforts as well as a team separate</p> <div data-bbox="711 980 870 1142" data-label="Image"> </div> <p data-bbox="911 1022 1341 1068">View this video recording: https://www.hravatar.com/ta/avpb/0/9248</p>

Voice Analysis Information

Spoken voice samples are processed through an artificial intelligence-based algorithm to determine how the speakers voice and speaking style is perceived by others. The following statistics and ratings were collected as part of this analysis and these were used in calculating the related competency scores.

Voice Analysis Info used in scoring: Audio/Video Interview Questions				
General Speaking Features				
Strength of Opening	63	Weak		Strong
Clarity	74	Muffled		Clear
Pace	Good	Too Slow		Too Fast
Pause to Talk Ratio	Too Little	Too Few/Short		Too Many/Long
Variety Features				
Volume Variety	Very Good	Too Little		Too Much
Pace Variety	Very Good	Too Little		Too Much
Pitch Variety	Too Little	Too Little		Too Much
Positive Vibes				
Assertive	58	Low		High (good)
Authentic	60	Low		High (good)
Captivating	52	Low		High (good)
Clear	61	Low		High (good)
Confident	61	Low		High (good)
Energetic	69	Low		High (good)
Organized	58	Low		High (good)
Personable	53	Low		High (good)
Persuasive	51	Low		High (good)
Negative Vibes				
Arrogant	13	Low (good)		High
Belligerent	15	Low (good)		High
Boring	28	Low (good)		High
Condescending	7	Low (good)		High
Confusing	14	Low (good)		High
Detached	23	Low (good)		High
Ditsy	12	Low (good)		High
Nervous	16	Low (good)		High
Pushy	23	Low (good)		High
Timid	16	Low (good)		High
Unapproachable	14	Low (good)		High

Report Preparation Notes

- Hiring decisions should never be based on a single source of information. The most effective use of this assessment report is as a part of a multi-faceted program of candidate evaluation that includes resume review, interviews, and reference checks.
- Overall vs Percentiles Scores: The overall score reflects the success in the test, based on the mean (average) and standard deviation of the test scores. The percentile score reflects the percentage of test-takers who scored equal or below this overall score. We recommend you use the Overall Score as your primary evaluation criteria. However, percentile scores can often be useful in comparing specific candidates against one another and with a group, such as for test takers in a certain organization or within a certain account.
- Note that comparison information is calculated based on completed instances of this assessment at that time the assessment is scored. As additional instances are completed, the comparative data may change. You can always update a report to the current values by clicking on "Recalculate Percentiles" within the online results viewing pages at www.hravatar.com.
- Most competency scores are norm-based, which means that they can be interpreted in terms of their distance from the average or mean score. For all scales, a score equal to the mean receives a score of 65 and scores above and below this value are set so that a score change of 15 equals one standard deviation.
- For linear competencies, higher is better across the entire scale. For these scales a score between 65 and 80 (light green) represents 0 to 1 standard deviation above the mean and a score above 80 (dark green) represents more than one standard deviation above the mean. Similarly, a score of 50 - 65 (yellow) represents 0 to 1 standard deviation below the mean, while a score of 35 - 50 (orange) equates to 1 to 2 standard deviations below the mean, and a score below 35 represents more than 2 standard deviations below the mean.
- For non-linear competencies, scores in the middle are more desirable. For these scales a score between 50 and 80 (dark green) represents scores that are within 1 standard deviation of the mean, scores between 80 and 95 and scores between 35 and 50 (yellow) represent scores that are 1 to 2 standard deviations above or below the mean, and scores above 95 or below 35 (red) represent scores that are more than 2 standard deviations above or below the mean.
- This assessment makes use of data from the Occupational Information Network (O*NET), which is funded by the U.S. Federal Government - U.S. Department of Labor/Employment and Training Administration (USDOL/ETA) - as a primary source of occupational information. The O*NET database contains information on hundreds of standardized and occupation-specific descriptors that are continually updated by ongoing research. These data are used in preparing descriptive information as well as setting relative weights between competencies used in calculating the overall score. For additional information about O*NET, visit <http://www.onetcenter.org>.
- O*Net Standard Occupational Code (SOC) Used: 13-1023.00
- O*Net Version: 25.1
- Sim ID: 8957-3, Key: 0-0, Rpt: 70, Prd: 3307, Created: 2021-10-19 00:12 UTC
- UA: Mozilla/5.0 (Windows NT 6.3; Trident/7.0; Touch; rv:11.0) like Gecko

Score Calculation Detail

The following table provides a summary of how the overall score was calculated from the individual competency scores. Competency scores are calculated on a 0-100 scale by first calculating a Z statistic based on test-taker responses and then transforming the Z value to a scale with target mean and standard deviation. Certain competencies have a normal score distribution where it is best to be closest to the mean. For these competencies we modify the Z statistic by multiplying its absolute value by minus 1 for the overall score calculation. Next, to calculate the overall score, a weighted average of all modified competency Z statistics is computed and this weighted average is itself transformed to a Z statistic, which is then transformed to a score with the same target mean and standard deviation. Finally outlier scores are adjusted if they are below 0 or above 100.

Competency	Score	How applied to overall	Score Value Used	Weight (%)
Analytical Thinking and Attention to Detail	92.5404	Z-Statistic	1.8360	33.3333
Audio/Video Interview Questions	77.2493	Z-Statistic	0.8166	33.3333
Voice-Derived Performance Potential	83.1700	Z-Statistic	1.2113	33.3333

Weighted Average of Competency Z-Scores:	1.2880
Mean applied to Raw Weighted Avg:	0.0000
Standard Deviation applied to Raw Weighted Avg:	1.0000
Normalized Raw Score:	1.2880
Mean:	65.0000
Standard Deviation Used:	15.0000
Final Overall Score:	84.3199
