

Test Results and Interview Guide

Candidate: **Richard Wantsajob**
Assessment: Work Productivity Index - Sales
Completed: May 17, 2025
Prepared for: Sara Maple
Example Company

What's Included

- Overall Score
- Competency Summary Table
- Comparison Matrix
- Detailed Competency Results with Interview Guide
- Recorded Audio/Video Results

Important Note: The Work Productivity Index - Sales assessment measures key factors related to high performance and tenure in this job. Attribute types measured vary by test, but can include cognitive ability, skills, knowledge, personality characteristics, emotional intelligence, and past behavioral history. This report includes a one page summary, followed by detailed results with an embedded interview guide. Note that these results should always be used as a part of a balanced candidate selection process that includes independent evaluation steps, such as interviews and reference checks.

Overall

Candidate	Score	Interpretation
Richard Wantsajob rich.wantsajob@gmail.com Work Productivity Index - Sales May 17, 2025 Summary: High Performance Potential	90	

Key

- Candidate Score
- Higher Risk
- Lower Risk

Competency Summary

Competency	Score	Interpretation
Cognitive Abilities (relates to job performance, problem-solving, ability to learn, etc.)		
Analytical Thinking_suppls	74	
Attention to Detail_suppls	96	
Skills/Knowledge (relates to immediate readiness)		
Interview Questions	95	
Artificial Intelligence (AI)-Derived Traits		
Voice-Derived Performance Potential	94	

Comparison

Percentile scores indicate how the candidate compares to other test-takers within various groups. The candidate scored equal to or better than the fraction of test-takers indicated by the percentile.

Test-Taker Group	Percentile	0	10	20	30	40	50	60	70	80	90	100	
Global	90th												
United States	75th												
Example Company	83rd												

Assessment Overview

This assessment provides scores for a number of important factors and competencies that are related to success on the job. Scores are presented based on their potential impact on job performance.

Scores are presented individually on a scale of 0-100. In most cases, including the overall score, higher scores represent higher expected job performance. However, for some competencies, either extreme low or extreme high scores indicate a risk of lower performance. Refer to the interpretation section of each competency for additional information.

Individual competency scores are also combined into a single overall score. Please note that individual competencies are weighted differently, depending on their type, and on fine adjustments based on data from the US Government's Occupational Data Network (O*Net).

Each competency measured includes one or more suggested interview questions, in an easy-to-use format. These questions should be used for additional probing, especially when the score shows an area of relative weakness.

Some of the competencies measured evaluate preferences for doing (or not doing) specific activities. Scores for these competencies can be used to evaluate job-fit.

We wish to emphasize that the data contained in this report should be used as part of a comprehensive process for evaluating job candidates. Additional data should include in-person interviews, job tryouts, resume review, and background checks.

Detail

Candidate: **Richard Wantsajob**, rich.wantsajob@gmail.com
Assessment: Work Productivity Index - Sales
Authorized: May 17, 2025, by Sara Maple, Example Company, qamailsaram.mike@hravatar.com
Started: May 17, 2025, 7:42:31AM EDT
Completed: May 17, 2025, 7:42:31AM EDT
Overall Score: 90

Cognitive Abilities Detail

This section contains a list of job-related cognitive abilities that have been evaluated in a job-like context using simulation technology. Studies have demonstrated that cognitive abilities are highly correlated with job performance for many jobs. Abilities also correlate with problem-solving and the ability to learn quickly.

Detail

Interview Guide

Analytical Thinking_suppls

Score: 74

Description:

Evaluates the candidate's ability in the area of Analytical Thinking_suppls, with an aim to determine the degree of training and/or practice that will be required before the candidate can be expected to become productive.

Interpretation:

Strong scores in this area correlate with above average performance for many jobs.

Scores indicate good Analytical Thinking_suppls ability. Candidate is likely ready to be productive with very little basic training or with immediate entry into advanced training.

Tell me about a project or task where you had to use your Analytical Thinking_suppls abilities.

1

Example didn't require or demonstrate ability.

2

Ability only moderately relevant or demonstrated.

3

4

Clearly relevant use and demonstration of ability.

5

Detail Interview Guide

Attention to Detail_suppls

Score: 96

Description:

Evaluates the candidate's ability in the area of Attention to Detail_suppls, with an aim to determine the degree of training and/or practice that will be required before the candidate can be expected to become productive.

Interpretation:

High scores in this area correlate with superior performance for many jobs.

Scores indicate solid Attention to Detail_suppls ability. Candidate is likely ready to be productive without basic training or with immediate entry into advanced training.

Tell me about a project or task where you had to use your Attention to Detail_suppls abilities.

1

Example didn't require or demonstrate ability.

2

Ability only moderately relevant or demonstrated.

3

4

Clearly relevant use and demonstration of ability.

5

Knowledge and Skills Detail

This section contains a list of job-related knowledge areas and skills that have been evaluated. Low scores in these areas often indicate that additional learning may be required before top performance can be achieved.

Detail Interview Guide

Interview Questions

Score: 95

Description:

A customized series of open-ended video-response questions were asked. Results include the video responses themselves for viewing, as well as transcripts, text analysis, and voice analysis. Text analysis includes vocabulary and grammar. Voice analysis includes perceived voice intonation and other speaking quality factors.

Interpretation:

The candidate's score in this area should contribute to enhanced overall job performance.

Text and voice analysis indicates significantly above average quality to open-ended responses.

Please see below to view the converted text from the voice sample that was collected.

Artificial Intelligence (AI)-Derived Traits Detail

This section contains a list of traits and characteristics measured through artificial intelligence using machine learning. These traits can often impact performance in group or team environments as well as individual work environments. Sample interview questions are provided to gather more information.

Detail

Interview Guide

Voice-Derived Performance Potential

Score: 94

Description:

Experimental: Based on artificial intelligence (AI) that evaluates how a candidate's voice is perceived by others. Preliminary studies have shown that candidates who sound confident and assertive often correlate with high performance, while candidates who come across as detached often exhibit lower performance. Please note that research regarding this measurement is ongoing and should not be used as the basis for employment decisions at this point.

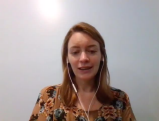

Interpretation:

The candidate's score in this area should contribute to enhanced overall job performance.

Experimental: Perceived voice indicates high performance potential.

Audio/Video Responses

During the assessment, the candidate was asked to answer open-ended answer to one or more questions by either audio or video. If the candidate did not have the ability to upload audio or video they were asked to write their responses. The text of their responses as well as any included analysis of their speaking or text is provided below. Additionally, you can click on the links below (or cut and past into a web browser) to view or listen to their response directly.

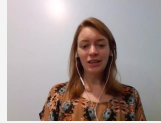

Question	Response
<p>Please describe something you like to do during your free time.</p>	<p>Hello, my name is Sandy. Something that I like to do during my free time is play music. I think it is a great escape. I think it's very relaxing. I think it helps grow your mind as you age. Uh, everyone in my family plays music. So it's a highlight of my day if I get to pick up an instrument and play as well as sing, whether that be in the car or at home. I also like to spend a lot of time with family and friends. They're very important to me. They support me a lot. So spending time with them provides me with a lot of happiness.</p> <div data-bbox="711 630 868 751" style="text-align: center;">  </div> <p style="text-align: center;">View this video recording:</p>
<p>Talk about yourself. Start with your name, then add whatever you want.</p>	<p>Oh, goodness, where to start. There's a lot that I could say about myself. I feel what's more important to this interview is my education. Um, I had my undergraduate in psychology, just a bachelor's in science and then moving on to my master's degree. I have a master's in science, in industrial organizational psychology. Uh, a lot of my free time is spent with friends and family. I love to play sports. I love musical instruments. I love going on adventures. I love staying healthy when I can as well, both mentally and physically. And I would say that's, that's the best start to me. Oh, I also have a dog. His name is Sammy and he is an absolute sweetie. He is my life.</p> <div data-bbox="711 1039 868 1161" style="text-align: center;">  </div> <p style="text-align: center;">View this video recording:</p>
<p>What are your biggest strengths and weaknesses?</p>	<p>So to start with my biggest strengths, I would say I have a lot of leadership skills. I have been in leadership positions all of my life, even from elementary school, moving all the way through college and even now in the workplace, uh I love, you know, leading others and, and having that role, I'm a very strong communicator. I believe communication is very um a lot of my peers and coworkers have, have talked about that as well that I'm very, I'm almost an over communicator not to bleed too much into the weaknesses, but I am very high on the communication side. I'm very creative. I, I have had creativity throughout my life with, with music and art. Um and that has bled into uh psychology as well. I am very good with time management. I'm very organized, it comes with the, the position as well. Uh I'm very curious, I love growing my, my learning ability as far as weaknesses. I, I could say in part that over communication could be a weakness. I notice that sometimes in emails, my emails are, are very lengthy for certain things because I feel that I have to over communicate to make sure that everything is clear to all different types of parties as well as a weakness being that I always put my health first before my job. So if necessary, if needed, I put my health and the health of my closest family members first.</p> <div data-bbox="711 1638 868 1759" style="text-align: center;">  </div> <p style="text-align: center;">View this video recording:</p>

Question

Response

How does your experience relate to the job you are applying for?

Both my job experience and my education experience relate to the job that I'm applying for. I have had over five years of job experience directly related to the same task expected on this job. And my degrees, both my bachelor's and my master's applied directly to the job that I'm applying for.

[View this video recording:](#)

Why do you think you would succeed in the job you are applying for?

I believe that I will succeed in this job because of my education and my job experience previously talked about in the last question. Um that and just my dedication to what this company stands for. I, I really do believe in this company. I think that I am a good fit for what is being asked of me. And I think that I will also be able to expand the scope of the job even further, hopefully helping the company more than it has already been helped.

[View this video recording:](#)

What would your most recent or current manager say about your performance?

My current manager would say that I have pretty high level performance more likely in the top 5% of the people in our current company. I remember in my last annual review with him, uh He mentioned that my only fault was that I was too organized, um almost intimidatingly. So, um so I believe that my manager would say that my performance is really good. Um We haven't had any issues in the past um recent managers before that would say the same. I've always gone above and beyond with my performance as doing more of what was asked of me.

[View this video recording:](#)

Talk about where you see yourself five years from now.

I plan on continue working in my field. Hopefully at a more senior level, more gained experience, more leadership responsibility, maybe even going to a few conferences, maybe speaking at conferences. I I plan to really hone in on this field and take it above and beyond. Um and hopefully be working for your company.

[View this video recording:](#)

Why is the human resources function so critical to most organizations?

Human resources is critical for many reasons. Uh It provides structured methods to address and resolve conflicts within the workplace. It creates a harmonious work environment. It maximizes employee productivity in some cases and overall, it protects the company uh with any issues that may arise within the workforce.

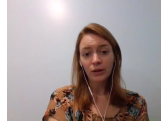

[View this video recording:](#)

Question

Response

How did you develop your human resources knowledge and how do you keep it up-to-date?

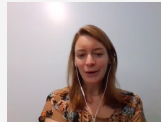

I initially developed my human resources knowledge by going to school in the fields that I went through. Um As far as keeping it up to date, I am a part of many newsletters. I keep up to date with all the laws and changes, with hiring and, and development and training, as well as attending conferences and being a part of newsletters.

[View this video recording:](#)

Is there anything you want to tell the company that you haven't had a chance to say yet?

I am just very excited for this opportunity. I hope I get moved to the next step so I can get to know you all a little bit better if an assessment is given, I can't wait to take it to show you my level of skills. And um that is it.

Voice Analysis Information

Spoken voice samples are processed through an artificial intelligence-based algorithm to determine how the speaker's voice and speaking style is perceived by others. The following statistics and ratings were collected as part of this analysis and these were used in calculating the related competency scores.

Voice Analysis Info used in scoring: Interview Questions

General Speaking Features

Strength of Opening	37	Weak		Strong
Clarity	90	Muffled		Clear
Pace	Good	Too Slow		Too Fast
Pause to Talk Ratio	Too Little	Too Few/Short		Too Many/Long

Variety Features

Volume Variety	Very Good	Too Little		Too Much
Pace Variety	Very Good	Too Little		Too Much
Pitch Variety	Too Little	Too Little		Too Much

Positive Vibes

Assertive	37	Low		High (good)
Authentic	50	Low		High (good)
Captivating	34	Low		High (good)
Clear	49	Low		High (good)
Confident	44	Low		High (good)
Energetic	41	Low		High (good)
Organized	46	Low		High (good)
Personable	47	Low		High (good)
Persuasive	37	Low		High (good)

Negative Vibes

Arrogant	14	Low (good)		High
Belligerent	14	Low (good)		High
Boring	49	Low (good)		High
Condescending	13	Low (good)		High
Confusing	33	Low (good)		High
Detached	40	Low (good)		High
Ditsy	22	Low (good)		High
Nervous	35	Low (good)		High
Pushy	16	Low (good)		High
Timid	32	Low (good)		High
Unapproachable	29	Low (good)		High

Identity Confirmation Photos

The following photos of the candidate and any identification were uploaded during the assessment session.

Photo Analysis Results

- Risk:	Medium risk of cheating based on image inconsistencies
- Percent match among processed faces	100%
- Total images processed	17
- Total images with valid faces	14 (82%)
- Total pairs of faces compared	13
- Pairs in which faces matched	13 (100%)

Report Preparation Notes

- Hiring decisions should never be based on a single source of information. The most effective use of this assessment report is as a part of a multi-faceted program of candidate evaluation that includes resume review, interviews, and reference checks.
- Overall vs Percentiles Scores: The overall score reflects the success in the test, based on the mean (average) and standard deviation of the test scores. The percentile score reflects the percentage of test-takers who scored equal or below this overall score. We recommend you use the Overall Score as your primary evaluation criteria. However, percentile scores can often be useful in comparing specific candidates against one another and with a group, such as for test takers in a certain organization or within a certain account.
- Note that comparison information is calculated based on completed instances of this assessment at that time the assessment is scored. As additional instances are completed, the comparative data may change. You can always update a report to the current values by clicking on 'Recalculate Percentiles' within the online results viewing pages at www.hravatar.com.
- Most competency scores are norm-based, which means that they can be interpreted in terms of their distance from the average or mean score. For all scales, a score equal to the mean receives a score of 65 and scores above and below this value are set so that a score change of 15 equals one standard deviation.
- For linear competencies, higher is better across the entire scale. For these scales a score between 65 and 80 (light green) represents 0 to 1 standard deviation above the mean and a score above 80 (dark green) represents more than one standard deviation above the mean. Similarly, a score of 50 - 65 (yellow) represents 0 to 1 standard deviation below the mean, while a score of 35 - 50 (orange) equates to 1 to 2 standard deviations below the mean, and a score below 35 represents more than 2 standard deviations below the mean.
- This assessment makes use of data from the Occupational Information Network (O*NET), which is funded by the U.S. Federal Government - U.S. Department of Labor/Employment and Training Administration (USDOL/ETA) - as a primary source of occupational information. The O*NET database contains information on hundreds of standardized and occupation-specific descriptors that are continually updated by ongoing research. These data are used in preparing descriptive information as well as setting relative weights between competencies used in calculating the overall score. For additional information about O*NET, visit <http://www.onetcenter.org>.
- O*Net Standard Occupational Code (SOC) Used: 41-4011.00
- O*Net Version: 26.3
- Sim ID: 9114-3, Key: 0-0, Rpt: 70, Prd: 3371, Created: 2025-05-17 11:42 UTC
- UA: Mozilla/5.0 (Windows NT 6.3; Trident/7.0; Touch; rv:11.0) like Gecko

Score Calculation Detail

The following table provides a summary of how the overall score was calculated from the individual competency scores. Competency scores are calculated on a 0-100 scale by first calculating a Z statistic based on test-taker responses and then transforming the Z value to a scale with target mean and standard deviation. Certain competencies have a normal score distribution where it is best to be closest to the mean. For these competencies we modify the Z statistic by multiplying its absolute value by minus 1 for the overall score calculation. Next, to calculate the overall score, a weighted average of all modified competency Z statistics is computed and this weighted average is itself transformed to a Z statistic, which is then transformed to a score with the same target mean and standard deviation. Finally outlier scores are adjusted if they are below 0 or above 100.

Competency	Score	How applied to overall	Score Value Used	Weight (%)
Analytical Thinking_suppls	74.7268	Z-Statistic	0.6485	14.2857
Attention to Detail_suppls	96.5242	Z-Statistic	2.1016	14.2857
Interview Questions	95.3791	Z-Statistic	95.3791	35.7143
Voice-Derived Performance Potential	94.8781	Z-Statistic	1.9919	35.7143
Weighted Average of Competency Z-Scores:				35.1682
Mean applied to Raw Weighted Avg:				0.0000
Standard Deviation applied to Raw Weighted Avg:				1.0000
Normalized Raw Score:				35.1682
Mean:				65.0000
Standard Deviation Used:				15.0000
Final Overall Score:				100.0000
