Test Results and Interview Guide

Candidate:	**Elizabeth Wantsajob**
Assessment:	Alphanumeric Data Entry (Audio, US)
Completed:	November 7, 2026
Prepared for:	Sara Maple
	Example Company

What's Included

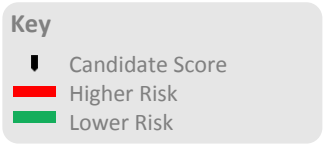
- Overall Score
- Competency Summary Table
- Comparison Matrix
- Detailed Competency Results with Interview Guide

Important Note: The Alphanumeric Data Entry (Audio, US) assessment measures key factors related to high performance and tenure in this job. Attribute types measured vary by test, but can include cognitive ability, skills, knowledge, personality characteristics, emotional intelligence, and past behavioral history. This report includes a one page summary, followed by detailed results with an embedded interview guide. Note that these results should always be used as a part of a balanced candidate selection process that includes independent evaluation steps, such as interviews and reference checks.

Proprietary and Confidential

Overall

Candidate	Score	Interpretation
Elizabeth Wantsajob beth.wantsajob@gmail.com Alphanumeric Data Entry (Audio, US) November 7, 2026	69	
The candidate's scores indicate moderate to high performance potential in most jobs. We recommend that this score be used in conjunction with a comprehensive process for evaluating potential performance, including the specific knowledge, skills, and abilities required for a particular job.



Competency Summary

Competency	Score	Interpretation
Skills/Knowledge (relates to immediate readiness)		
Alphanumeric Data Entry (Audio)	69	
Comparison

Percentile scores indicate how the candidate compares to other test-takers within various groups. The candidate scored equal to or better than the fraction of test-takers indicated by the percentile.

Test-Taker Group	Percentile
Global	69th
North America	57th
United States	57th
Example Company	63rd

Authorized:	November 7, 2026, by Sara Maple, Example Company, qamailsaram.mike@hravatar.com
IP Address:	96.241.65.10
IP Country:	United States
IP State:	Virginia
IP City:	Gainesville
Started:	November 7, 2026, 8:36:07AM EST
Completed:	November 7, 2026, 8:36:07AM EST
Overall Score:	69

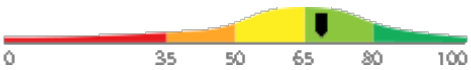
Knowledge and Skills Detail

This section contains a list of job-related knowledge areas and skills that have been evaluated. Low scores in these areas often indicate that additional learning may be required before top performance can be achieved.

Detail | Interview Guide

Alphanumeric Data Entry (Audio)

Score: 69



Description:

Evaluates a candidate's ability to enter alphanumeric data into a computer screen at both an acceptable rate of speed and degree of accuracy.

Interpretation:

Candidate should achieve above average job performance in this area with little or no training.

Above average. Types information quickly and accurately compared to peers. Submitted work typically requires only light review prior to sending to end users or customers.

Speed: 8200 Keystrokes/Hour

Net Errors: 1

Accuracy-Adjusted Speed: 7790 Keystrokes/Hour

Accuracy: 95%

Can you tell me about a time when your ability to type values quickly and accurately helped you achieve a goal or objective?

1	2	3	4	5
Typing or data entry is not relevant to example.		Example is somewhat related to typing or data entry speed and accuracy.		Example demonstrates fast and accurate data entry or typing under pressure.

Report Preparation Notes

- Hiring decisions should never be based on a single source of information. The most effective use of this assessment report is as a part of a multi-faceted program of candidate evaluation that includes resume review, interviews, and reference checks.
- Overall vs Percentiles Scores: The overall score reflects the success in the test, based on the mean (average) and standard deviation of the test scores. The percentile score reflects the percentage of test-takers who scored equal or below this overall score. We recommend you use the Overall Score as your primary evaluation criteria. However, percentile scores can often be useful in comparing specific candidates against one another and with a group, such as for test takers in a certain organization or within a certain account.
- Note that comparison information is calculated based on completed instances of this assessment at that time the assessment is scored. As additional instances are completed, the comparative data may change. You can always update a report to the current values by clicking on 'Recalculate Percentiles' within the online results viewing pages at www.hravatar.com.
- Most competency scores are norm-based, which means that they can be interpreted in terms of their distance from the average or mean score. For all scales, a score equal to the mean receives a score of 65 and scores above and below this value are set so that a score change of 15 equals one standard deviation.
- For linear competencies, higher is better across the entire scale. For these scales a score between 65 and 80 (light green) represents 0 to 1 standard deviation above the mean and a score above 80 (dark green) represents more than one standard deviation above the mean. Similarly, a score of 50 - 65 (yellow) represents 0 to 1 standard deviation below the mean, while a score of 35 - 50 (orange) equates to 1 to 2 standard deviations below the mean, and a score below 35 represents more than 2 standard deviations below the mean.
