

# Test Results and Interview Guide

Candidate: Assessment: Completed: Prepared for: **Richard Wantsajob** Operator - Machine - Metal and Plastic (Short) May 9, 2025 Sara Maple Example Company

# What's Included

- Overall Score
- Competency Summary Table
- Comparison Matrix
- Detailed Competency Results with Interview Guide

**Important Note:** The Operator - Machine - Metal and Plastic (Short) assessment measures key factors related to high performance and tenure in this job. Attribute types measured vary by test, but can include cognitive ability, skills, knowledge, personality characteristics, emotional intelligence, and past behavioral history. This report includes a one page summary, followed by detailed results with an embedded interview guide. Note that these results should always be used as a part of a balanced candidate selection process that includes independent evaluation steps, such as interviews and reference checks.

# Comparison

Percentile scores indicate how the candidate compares to other test-takers within various groups. The candidate scored equal to or better than the fraction of test-takers indicated by the percentile.

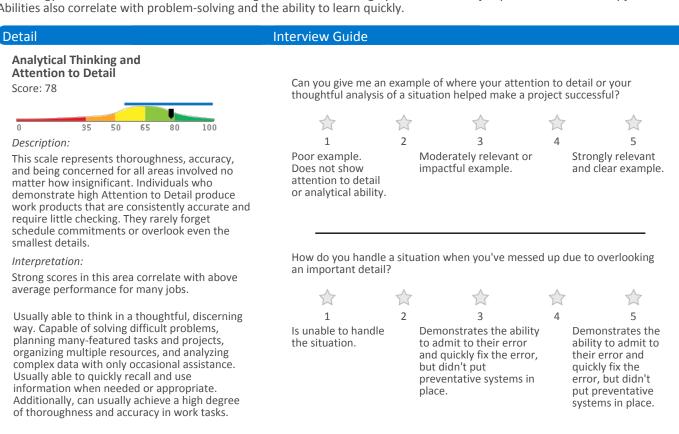

4

Candidate:	Richard Wantsajob, rich.wantsajob@gmail.com
Assessment:	Operator - Machine - Metal and Plastic (Short)
Authorized:	May 9, 2025, by Sara Maple, Example Company, qamailsaram.mike@hravatar.com
Started:	May 9, 2025, 4:53:30AM EDT
Completed:	May 9, 2025, 4:53:30AM EDT
Overall Score:	71

## **Cognitive Abilities Detail**

This section contains a list of job-related cognitive abilities that have been evaluated in a job-like context using simulation technology. Studies have demonstrated that cognitive abilities are highly correlated with job performance for many jobs. Abilities also correlate with problem-solving and the ability to learn quickly.

#### **Interview Guide**

#### **Mechanical Aptitude**

Score: 68

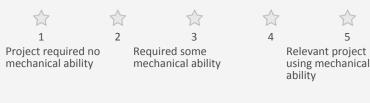

#### Description:

Evaluates the candidate's ability to understand and apply basic mechanical concepts.

Interpretation:

Strong scores in this area correlate with above average performance for many jobs.

The candidate's scores indicate a moderate to high degree of mechanical aptitude. We recommend that this score be used in conjunction with a comprehensive process for evaluating potential performance, including the specific knowledge, skills, and abilities required for a particular job. Describe a project in which your mechanical or electrical ability was an important element for success.

# **Personality Characteristics Detail**

This section contains a list of personality characteristics that are frequently associated with job performance. Remember, these are not skills and do not indicate the ability to do a job. Rather, they can be used to evaluate the candidate's fit with the general needs of the job and the organizational culture. Sample interview questions are provided to gather more information.

# Detail Interview Guide

### Adaptability

#### Description:

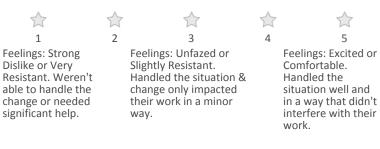

This scale reflects how accepting a person is of frequent or substantial changes in his or her job requirements. Changing work requirements usually cause stress and put pressure on an individual to adapt. High scorers usually thrive under changing work conditions, while low scorers may burn out or become paralyzed. In more stable job circumstances, high scorers may become bored, while low scorers would remain satisfied.

#### Interpretation:

Copyright 2025, HR Avatar, Inc. All Rights Reserved.

The candidate's score in this area should contribute to enhanced overall job performance.

Prefers a dynamic work environment. Able to remain focused and positive in times of significant workplace change. Fairly easy-going and relaxed. However, may appear uninterested under certain circumstances. Describe a time where you had to adapt to some significant changes at work. How did you feel? How did you handle the change?

What are some of the techniques you use to keep yourself from getting burnt out when faced with ever-changing conditions?

#### **Interview Guide**

#### Description:

This scale reflects the degree to which an individual will work hard to achieve goals and solve critical problems in the organization. High scores on this scale indicate a person will be diligent in their work and use all necessary sources to solve problems. Low scores on this scale indicate a person may be unenthusiastic about work and may struggle with complex tasks and challenges.

#### Interpretation:

The candidate's score in this area should contribute to enhanced overall job performance.

Highly motivated by challenging goals and tasks, financial rewards, and/or recognition, and willing to work very hard to succeed. Very focused on understanding guidelines, following the rules and personal achievement. Describe a time when you had some extra time available at work. How did you use this extra time?

Image: Constraint of the organization.Image: Constraint of the organizationImage: Constraint of the organizationImage

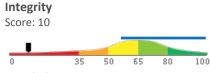

5 Used time in a beneficial way and added value to the organization. Showed ability to work hard and willingness to put in extra effort.

How do you react when you are faced with obstacles while trying to achieve a goal? How do you overcome them?

2 1 3 4 5 Reaction: Reaction: Ready but not **Reaction: Excited** and ready. Overwhelmed. excited. Candidate shows they are able to Candidate shows Struggles to come up with a clear way overcome the obstacle they are able to to overcome the but only by doing the overcome the obstacle and obstacle by putting bare minimum. in extra effort and doesn't demonstrate hard being diligent. work.

#### **Interview Guide**

#### Description:

This scale reflects the degree to which an individual acts positively towards the organization, avoids unnecessary risk, and, simply put, does the right thing. High scores on this scale indicate a person will act in the organization's best interest, follow the rules, and work hard under limited supervision. Low scores on this scale indicate a person may engage in risk-taking behaviors, work to undermine the organization, and only do the bare minimum.

#### Interpretation:

The candidate's score in this area indicates risk of a negative impact on performance for some jobs. Additional probing is strongly recommended.

Distrusts the organization and management. Frequently assumes new ideas or changes will have a negative individual impact. Can be defensive regarding his or her own work, or show hostility towards management or company policies. May take unnecessary risks on the job. What circumstance(s) might cause you to withhold information from your supervisor? How would you judge whether doing so would be justified?

V 2 5 1 3 4 Shows that they Explains only situational Explains only are not concerned circumstances. situational about ethics or Judgement does not circumstances, or organizational stem from an ethical no circumstances. values/rules. standpoint. Judgement stems from ethical standards.

Do you think it's ever okay to withhold information from your supervisor? How would you judge whether doing so is okay or not?

Ŵ T 1 2 3 Answer shows that Explains only situational they are not circumstances. concerned about Judgement does not ethics or stem from an ethical organizational standpoint. values/rules.

5 Explains only situational circumstances, or no circumstances. Judgement stems from ethical standards.

#### **Interview Guide**

Score: 69

#### Description:

This scale reflects the degree to which an individual can withstand adversity, bounce back from difficult events, and be persistent in doing work tasks despite difficulties that come their way. High scores on this scale indicate a person will likely be able to deal with difficult situations with ease, perceive they have control over events in their life, and continue to push forward to achieve goals. Low scores on this scale indicate a person may claim that mistakes/failures were out of their control. Low scorers tend to not cope well with on-the-job stress and don't put in the extra effort to achieve success when obstacles come their way.

Please note that resilience is not a fixed trait. Unlike many other personality characteristics, resilience can be developed over time. Additionally, multiple factors can influence how resilient a person is within a specific situation. In recognition of these features, additional probing using suggested interview questions is strongly recommended.

#### Interpretation:

The candidate's score in this area should contribute to enhanced overall job performance.

Responses indicate that the candidate can effectively work through difficulties at work by exhibiting positive emotions and the ability to take control of events. Candidate can likely push forward to achieve their goals, even when obstacles come their way. Describe a time when something at work/school didn't go as planned. How did you feel? How did it impact your work moving forward?

1 3 4 5 Feelings had a Feelings are true to the Feelings are true to negative outlook. situation. Event the situation but Event impacted impacted their work in a with a positive outlook. The event their work in a negative way but were negative way, they able to learn from it and impacted their weren't able to work in a positive persevere. learn from it or way or didn't persevere. impact their work at all. How do you normally react to bad news?

1 They get upset and don't know how to work through the challenges.

2

They get upset, however they see the positive outlook and have a plan to fix the challenges.

4

They are able to see the positive outlook in the long run and it doesn't impact their work.

#### Teamwork

Score: 96

#### Description:

This scale reflects the degree to which an individual works well with teams and maintains positive interpersonal relationships. High scores on this scale indicate a person will thrive in collaborative team settings and maintain highquality relationships with coworkers. Low scores on this scale indicate a person will prefer working on individual projects and may struggle to maintain close working relationships with colleagues.

#### Interpretation:

The candidate's score in this area should contribute to enhanced overall job performance.

Actively cultivates and maintains relationships. Able to quickly establish rapport with new acquaintances and accurately sense others' feelings. Maintains positive relationships with colleagues and uses them to achieve work outcomes and meet goals.

# **Report Preparation Notes**

- Hiring decisions should never be based on a single source of information. The most effective use of this assessment report is as a part of a multi-faceted program of candidate evaluation that includes resume review, interviews, and reference checks.
- Overall vs Percentiles Scores: The overall score reflects the success in the test, based on the mean (average) and standard deviation of the test scores. The percentile score reflects the percentage of test-takers who scored equal or below this overall score. We recommend you use the Overall Score as your primary evaluation criteria. However, percentile scores can often be useful in comparing specific candidates against one another and with a group, such as for test takers in a certain organization or within a certain account.
- Note that comparison information is calculated based on completed instances of this assessment at that time the assessment is scored. As additional instances are completed, the comparative data may change. You can always update a report to the current values by clicking on 'Recalculate Percentiles' within the online results viewing pages at www.hravatar.com.
- Most competency scores are norm-based, which means that they can be interpreted in terms of their distance from the average or mean score. For all scales, a score equal to the mean receives a score of 65 and scores above and below this value are set so that a score change of 15 equals one standard deviation.
- For linear competencies, higher is better across the entire scale. For these scales a score between 65 and 80 (light green) represents 0 to 1 standard deviation above the mean and a score above 80 (dark green) represents more than one standard deviation above the mean. Similarly, a score of 50 65 (yellow) represents 0 to 1 standard deviation below the mean, while a score of 35 50 (orange) equates to 1 to 2 standard deviations below the mean, and a score below 35 represents more than 2 standard deviations below the mean.
- This assessment makes use of data from the Occupational Information Network (O\*NET), which is funded by the U.S. Federal Government - U.S. Department of Labor/Employment and Training Administration (USDOL/ETA) - as a primary source of occupational information. The O\*NET database contains information on hundreds of standardized and occupation-specific descriptors that are continually updated by ongoing research. These data are used in preparing descriptive information as well as setting relative weights between competencies used in calculating the overall score. For additional information about O\*NET, visit http://www.onetcenter.org.
- O\*Net Standard Occupational Code (SOC) Used: 51-4031.00
- O\*Net Version: 29.2
- Sim ID: 14825-2, Key: 0-0, Rpt: 13, Prd: 5670, Created: 2025-05-09 08:53 UTC
- UA: Mozilla/5.0 (Windows NT 6.3; Trident/7.0; Touch; rv:11.0) like Gecko

# **Score Calculation Detail**

The following table provides a summary of how the overall score was calculated from the individual competency scores. Competency scores are calculated on a 0-100 scale by first calculating a Z statistic based on test-taker responses and then transforming the Z value to a scale with target mean and standard deviation. Certain competencies have a normal score distribution where it is best to be closest to the mean. For these competencies we modify the Z statistic by multiplying its absolute value by minus 1 for the overall score calculation. Next, to calculate the overall score, a weighted average of all modified competency Z statistics is computed and this weighted average is itself transformed to a Z statistic, which is then transformed to a score with the same target mean and standard deviation. Finally outlier scores are adjusted if they are below 0 or above 100.

Competency	Score	How applied to overall	Score Value Used	Weight (%)	
Adaptability	78.9083	Z-Statistic	0.9272	6.2415	
Analytical Thinking and Attention to Detail	78.5095	Z-Statistic	0.9006	16.1311	
Drive	85.8262	Z-Statistic	1.3884	7.4611	
History Survey - Performance	65.3771	Z-Statistic	0.0251	10.9320	
History Survey - Tenure	87.3950	Z-Statistic	1.4930	10.9320	
Integrity	10.0000	Z-Statistic	-3.6667	7.4611	
Mechanical Aptitude	68.4923	Z-Statistic	0.2328	27.3300	
Resilience	69.3371	Z-Statistic	0.2891	7.4611	
Teamwork	96.6901	Z-Statistic	2.1127	6.0502
