Personality Characteristics Detail

This section contains a list of personality characteristics that are frequently associated with job performance. Remember, these are not skills and do not indicate the ability to do a job. Rather, they can be used to evaluate the candidate's fit with the general needs of the job and the organizational culture. Sample interview questions are provided to gather more information.

Detail
Interview Guide

Adaptability

Score: 82

Description:

This scale reflects how accepting a person is of frequent or substantial changes in his or her job requirements. Changing work requirements usually cause stress and put pressure on an individual to adapt. High scorers usually thrive under changing work conditions, while low scorers may burn out or become paralyzed. In more stable job circumstances, high scorers may become bored, while low scorers would remain satisfied.

Interpretation:

The candidate's score in this area should contribute to enhanced overall job performance.

Thrives on change. Sees self as very flexible and easy-going. However, he or she may often be perceived as disinterested, unmotivated, or too easy-going in times of upheaval.

What are some of the techniques you use to keep yourself from getting burnt out when faced with ever-changing conditions?

Candidate doesn't have an effective technique to keep them from getting burnt out.

Candidate is only able to explain one effective technique to keep them from getting burnt out.

Candidate explains multiple effective techniques allowing themselves to not get burnt out.

Interview Guide

Competitive Spirit

Score: 86

Description:

This scale indicates the degree to which an individual is driven by a desire to win, to achieve objectives, and to outperform their peers. Competitiveness is the tendency to evaluate one's performance in comparison to others. It is characterized by a desire to do better than others, enjoying situations that can lead to a clear winner, and thriving in an environment where people are differentiated by accomplishments.

Interpretation:

The candidate's score in this area should contribute to enhanced overall job performance.

Driven by competition. Derives significant self-esteem from winning and is willing to expend extra effort to come out on top. Very comfortable competing with peers.

Tell me about a highly competitive situation you have experienced. How did you handle it?

1

Describes a competitive situation, they did not handle it well or with ease.

2

Describes a competitive situation, they handled it in a decent manor but did not show ease in competitive situations.

3

4

Describes a highly competitive situation, they handled it well demonstrating their drive, desire, and ease in competitive situations.

5

Integrity

Score: 10

Description:

This scale reflects the degree to which an individual acts positively towards the organization, avoids unnecessary risk, and, simply put, does the right thing. High scores on this scale indicate a person will act in the organization's best interest, follow the rules, and work hard under limited supervision. Low scores on this scale indicate a person may engage in risk-taking behaviors, work to undermine the organization, and only do the bare minimum.

Interpretation:

The candidate's score in this area indicates risk of a negative impact on performance for some jobs. Additional probing is strongly recommended.

Distrusts the organization and management. Frequently assumes new ideas or changes will have a negative individual impact. Can be defensive regarding his or her own work, or show hostility towards management or company policies. May take unnecessary risks on the job.

Describe an ideal person who has high integrity. What traits does that person have that set them apart?

1

The person: (1) does the right thing even under challenging circumstances

2

The person: (1) does the right thing even under challenging circumstances, (2) is honest OR has strong principles

3

4

The person:(1) does the right thing even under challenging circumstances, is (2) honest, and (3) has strong principles

Detail Interview Guide

Sales Hunter Mindset

Score: 92

Description:

Individuals who score highly on the Sales Mindset competency are inclined to be go-getters, seeking out new customers and new opportunities and pursuing them with enthusiasm and determination. They can tolerate higher stress levels and are not easily discouraged. They also expect to be rewarded for producing results.

Interpretation:

The candidate's score in this area should contribute to enhanced overall job performance.

Prefers seeking new customers to supporting existing ones. Thrives in high pressure sales situations. Expects to be rewarded for results rather than simply effort. Has high assertiveness and self-confidence.

How do you stay current on your target market?

Is unable to clearly explain a strategy for tackling the current target market.

Has a decent idea of how to tackle the current target market.

Explains a well thought out strategy to tackle the current target market.

Drive

Score: 68

Description:

This scale reflects the degree to which an individual will work hard to achieve goals and solve critical problems in the organization. High scores on this scale indicate a person will be diligent in their work and use all necessary sources to solve problems. Low scores on this scale indicate a person may be unenthusiastic about work and may struggle with complex tasks and challenges.

Interpretation:

The candidate's score in this area should contribute to enhanced overall job performance.

Motivated by challenging goals and tasks, financial reward, and/or recognition, and willing to work hard to succeed. Focused on understanding and following guidelines, personal achievement, and meeting or exceeding quality and production standards.

Describe a time when you had some extra time available at work. How did you use this extra time?

Did not use their time in a beneficial way, or in a way that added value to the organization.

Used their time in a work related way, but those efforts didn't demonstrate hard work or added value (easy).

Used time in a beneficial way and added value to the organization. Showed ability to work hard and willingness to put in extra effort.

Interview Guide

Resilience

Score: 95

Description:

This scale reflects the degree to which an individual can withstand adversity, bounce back from difficult events, and be persistent in doing work tasks despite difficulties that come their way. High scores on this scale indicate a person will likely be able to deal with difficult situations with ease, perceive they have control over events in their life, and continue to push forward to achieve goals. Low scores on this scale indicate a person may claim that mistakes/failures were out of their control. Low scorers tend to not cope well with on-the-job stress and don't put in the extra effort to achieve success when obstacles come their way.

Please note that resilience is not a fixed trait. Unlike many other personality characteristics, resilience can be developed over time. Additionally, multiple factors can influence how resilient a person is within a specific situation. In recognition of these features, additional probing using suggested interview questions is strongly recommended.

Interpretation:

The candidate's score in this area should contribute to enhanced overall job performance.

Responses indicate that the candidate can effectively work through difficulties at work by exhibiting positive emotions, having control over the events, being proactive, remaining hopeful, and learning from the experience. Candidate can always be expected to push forward to achieve their goals, even when obstacles come their way.

Describe a time when something at work/school didn't go as planned. How did you feel? How did it impact your work moving forward?

1

Feelings had a negative outlook. Event impacted their work in a negative way, they weren't able to persevere.

2

Feelings are true to the situation. Event impacted their work in a negative way but were able to learn from it and persevere.

3

4

Feelings are true to the situation but with a positive outlook. The event impacted their work in a positive way or didn't impact their work at all.

2

They are able to handle conflicting circumstances by being a team player, showing empathy, OR problem solving as a group.

3

4

They are able to handle conflicting circumstances by being a team player, showing empathy, AND problem solving as a group.

5

Emotional Intelligence Detail

This section contains a list of emotional intelligence characteristics that indicate how tuned in a candidate is to his or her own emotions, and those of others, as well as the candidate's ability to control his or her behavior in light of the emotions he or she is experiencing. These traits can often impact performance in groups or teams. Sample interview questions are provided to gather more information.

Detail **Interview Guide**

Empathy and Emotional Self-Control

Score: 98

Description:

This scale reflects both the ability to sense and understand other people's feelings, feel sympathy for others, and see things from other people's point of view, and the ability to manage the desire to satisfy urges or impulses, showing restraint and managing behaviors to ensure appropriate and effective interactions with others.

Interpretation:

The candidate's score in this area should contribute to enhanced overall job performance.

Demonstrates exceptional strengths in sensing the emotional needs of others, sympathizing with other people's problems, and seeing things from other people's point of view. Likely to be very effective at demonstrating to customers or coworkers that they understand and care about them, resulting in significantly improved customer loyalty, much stronger work relationships, and noticeably reduced levels of conflict in the workplace.

What do you typically do when you are working closely with someone who is very upset?

1

They have an inappropriate response and don't demonstrate understanding or care.

2

They (1) have an appropriate response and (2) demonstrate understanding but unable to show the customer that they care.

3

4

They (1) have an appropriate response (2) demonstrate understanding and (3) show the customer that they care.

Report Preparation Notes

- Hiring decisions should never be based on a single source of information. The most effective use of this assessment report is as a part of a multi-faceted program of candidate evaluation that includes resume review, interviews, and reference checks.
- Overall vs Percentiles Scores: The overall score reflects the success in the test, based on the mean (average) and standard deviation of the test scores. The percentile score reflects the percentage of test-takers who scored equal or below this overall score. We recommend you use the Overall Score as your primary evaluation criteria. However, percentile scores can often be useful in comparing specific candidates against one another and with a group, such as for test takers in a certain organization or within a certain account.
- Note that comparison information is calculated based on completed instances of this assessment at that time the assessment is scored. As additional instances are completed, the comparative data may change. You can always update a report to the current values by clicking on 'Recalculate Percentiles' within the online results viewing pages at www.hravatar.com.
- Most competency scores are norm-based, which means that they can be interpreted in terms of their distance from the average or mean score. For all scales, a score equal to the mean receives a score of 65 and scores above and below this value are set so that a score change of 15 equals one standard deviation.
- For linear competencies, higher is better across the entire scale. For these scales a score between 65 and 80 (light green) represents 0 to 1 standard deviation above the mean and a score above 80 (dark green) represents more than one standard deviation above the mean. Similarly, a score of 50 - 65 (yellow) represents 0 to 1 standard deviation below the mean, while a score of 35 - 50 (orange) equates to 1 to 2 standard deviations below the mean, and a score below 35 represents more than 2 standard deviations below the mean.

Score Calculation Detail

The following table provides a summary of how the overall score was calculated from the individual competency scores. Competency scores are calculated on a 0-100 scale by first calculating a Z statistic based on test-taker responses and then transforming the Z value to a scale with target mean and standard deviation. Certain competencies have a normal score distribution where it is best to be closest to the mean. For these competencies we modify the Z statistic by multiplying its absolute value by minus 1 for the overall score calculation. Next, to calculate the overall score, a weighted average of all modified competency Z statistics is computed and this weighted average is itself transformed to a Z statistic, which is then transformed to a score with the same target mean and standard deviation. Finally outlier scores are adjusted if they are below 0 or above 100.
