

Test Results and Interview Guide

Candidate: **Richard Wantsajob**
Assessment: Mechanical Aptitude (Portuguese)
Completed: December 9, 2024
Prepared for: Sara Maple
Example Company

What's Included

- Overall Score
- Competency Summary Table
- Comparison Matrix
- Detailed Competency Results with Interview Guide

Important Note: The Mechanical Aptitude (Portuguese) assessment measures key factors related to high performance and tenure in this job. Attribute types measured vary by test, but can include cognitive ability, skills, knowledge, personality characteristics, emotional intelligence, and past behavioral history. This report includes a one page summary, followed by detailed results with an embedded interview guide. Note that these results should always be used as a part of a balanced candidate selection process that includes independent evaluation steps, such as interviews and reference checks.

Overall

| Candidate | Score | Interpretation |
|--|---|----------------|
| Richard Wantsajob rich.wantsajob@gmail.com Mechanical Aptitude (Portuguese) December 9, 2024 | 75 | |

As pontuações do candidato indicam um grau moderado a alto de aptidão mecânica. Recomendamos que essa pontuação seja utilizada com um processo abrangente para avaliar o potencial de desempenho, incluindo os conhecimentos, habilidades e capacidades específicos necessários para um determinado cargo.

- Lower Risk

Competency Summary

| Competency | Score | Interpretation |
|--|-------|----------------|
| Cognitive Abilities (relates to job performance, problem-solving, ability to learn, etc.) | | |
| Circuits | 64 | |
| Gears and Pulleys | 69 | |
| Basic Physics | 83 | |
| Tools | 95 | |
| Spatial Reasoning | 65 | |

Comparison

Percentile scores indicate how the candidate compares to other test-takers within various groups. The candidate scored equal to or better than the fraction of test-takers indicated by the percentile.

| Test-Taker Group | Percentile | 0 | 10 | 20 | 30 | 40 | 50 | 60 | 70 | 80 | 90 | 100 | |
|------------------|------------|---|----|----|----|----|----|----|----|----|----|-----|--|
| Global | 75th | | | | | | | | | | | | |
| United States | 62nd | | | | | | | | | | | | |
| Example Company | 69th | | | | | | | | | | | | |

Detail

Candidate: **Richard Wantsajob**, rich.wantsajob@gmail.com
 Assessment: Mechanical Aptitude (Portuguese)
 Authorized: December 9, 2024, by Sara Maple, Example Company, qamailsaram.mike@hravatar.com
 Started: December 9, 2024, 1:55:31PM EST
 Completed: December 9, 2024, 1:55:31PM EST
 Overall Score: 75

Cognitive Abilities Detail

This section contains a list of job-related cognitive abilities that have been evaluated in a job-like context using simulation technology. Studies have demonstrated that cognitive abilities are highly correlated with job performance for many jobs. Abilities also correlate with problem-solving and the ability to learn quickly.

Detail
Interview Guide

Circuits

Score: 64

Description:

Compreensão básica de eletricidade e de como os circuitos elétricos funcionam.

Interpretation:

Scores in this area correlate with average performance for many jobs.

A pontuação do candidato demonstra um conhecimento moderado em circuitos.

Você já recebeu algum treinamento em circuitos elétricos? Poderia descrever um projeto em que precisou utilizá-los?

| | | | | |
|--|---|--|---|--|
| ★ | ★ | ★ | ★ | ★ |
| 1 | 2 | 3 | 4 | 5 |
| Nenhum treinamento. Nenhum projeto. | | Treinamento básico durante o ensino médio. | | Treinamento formal. Utilização profissional. |

Gears and Pulleys

Score: 69

Description:

Refere-se à compreensão básica de como as engrenagens e roldanas funcionam, e como elas podem fornecer alavancagem ao levantar ou mover itens pesados.

Interpretation:

Strong scores in this area correlate with above average performance for many jobs.

A pontuação do candidato demonstra um conhecimento moderado a avançado de engrenagens e roldanas.

Você já estudou como engrenagens e roldanas facilitam nosso trabalho?

| | | | | |
|-----|---|-----|---|-----|
| ★ | ★ | ★ | ★ | ★ |
| 1 | 2 | 3 | 4 | 5 |
| N/A | | N/A | | N/A |

Detail Interview Guide

Basic Physics

Score: 83

Description:

Refere-se a conceitos fundamentais de física básica, incluindo velocidade, momentum, massa e alavancagem.

Interpretation:

High scores in this area correlate with superior performance for many jobs.

A pontuação do candidato demonstra um conhecimento prático sólido de física básica.

Você já estudou física? Poderia descrever um momento em que sua compreensão básica de massa ou momentum foi útil no trabalho?

1

Nenhum treinamento. Nenhuma utilização de física.

2

Aula básica do ensino médio. Alguma utilidade no local de trabalho.

3

4

Aula avançada do ensino médio ou aula de nível universitário. Exemplo claro de utilidade.

5

Tools

Score: 95

Description:

Avalia o reconhecimento de vários tipos de ferramentas e seus propósitos.

Interpretation:

High scores in this area correlate with superior performance for many jobs.

A pontuação do candidato indica um grau alto de reconhecimento do uso de diferentes ferramentas.

Você trabalha muito com ferramentas? Como você adquiriu conhecimento sobre diferentes ferramentas?

1

Não trabalha com ferramentas.

2

Capacitação prática no trabalho ou em projetos caseiros.

3

4

Trabalha extensivamente com ferramentas.

5

Spatial Reasoning

Score: 65

Description:

Refere-se à capacidade de prever uma mudança na orientação espacial de um objeto tridimensional.

Interpretation:

Strong scores in this area correlate with above average performance for many jobs.

A pontuação do candidato demonstra um grau moderado a alto de capacidade de raciocínio espacial.

Poderia descrever um momento em que você teve que prever algo antes de ser realmente construído? Como foi o resultado?

1

Sem exemplo.

2

Exemplo fraco.

3

4

Exemplo forte.

5

Identity Confirmation Photos

The following photos of the candidate and any identification were uploaded during the assessment session.

Photo Analysis Results

| | |
|---------------------------------------|---|
| - Risk: | Medium risk of cheating based on image inconsistencies |
| - Percent match among processed faces | 100% |
| - Total images processed | 17 |
| - Total images with valid faces | 14 (82%) |
| - Total pairs of faces compared | 13 |
| - Pairs in which faces matched | 13 (100%) |

Report Preparation Notes

- Hiring decisions should never be based on a single source of information. The most effective use of this assessment report is as a part of a multi-faceted program of candidate evaluation that includes resume review, interviews, and reference checks.
- Overall vs Percentiles Scores: The overall score reflects the success in the test, based on the mean (average) and standard deviation of the test scores. The percentile score reflects the percentage of test-takers who scored equal or below this overall score. We recommend you use the Overall Score as your primary evaluation criteria. However, percentile scores can often be useful in comparing specific candidates against one another and with a group, such as for test takers in a certain organization or within a certain account.
- Note that comparison information is calculated based on completed instances of this assessment at that time the assessment is scored. As additional instances are completed, the comparative data may change. You can always update a report to the current values by clicking on 'Recalculate Percentiles' within the online results viewing pages at www.hravatar.com.
- Most competency scores are norm-based, which means that they can be interpreted in terms of their distance from the average or mean score. For all scales, a score equal to the mean receives a score of 65 and scores above and below this value are set so that a score change of 15 equals one standard deviation.
- For linear competencies, higher is better across the entire scale. For these scales a score between 65 and 80 (light green) represents 0 to 1 standard deviation above the mean and a score above 80 (dark green) represents more than one standard deviation above the mean. Similarly, a score of 50 - 65 (yellow) represents 0 to 1 standard deviation below the mean, while a score of 35 - 50 (orange) equates to 1 to 2 standard deviations below the mean, and a score below 35 represents more than 2 standard deviations below the mean.
- Sim ID: 15995-1, Key: 0-0, Rpt: 68, Prd: 6900, Created: 2024-12-09 18:55 UTC

Score Calculation Detail

The following table provides a summary of how the overall score was calculated from each of the individual competency scores. First, all competency scores are calculated on a scale of 0-100. Note that some competencies use their color category rather than their actual numeric score in the overall calculation. For these, a standard score associated with the assigned color category is used in the overall score calculation rather than the actual numeric score. This is reflected in the "Score Value Used" column. Next, a weighted average of scores is computed using individual competency weights, typically set using job analysis data provided by the US Government Occupational Information Network (O*Net).

| Competency | Score | How applied to overall | Score Value Used | Weight (%) |
|----------------------|---------|------------------------|------------------|------------|
| Circuits | 64.5825 | Numeric Score | 64.5825 | 20.0000 |
| Gears and Pulleys | 69.7054 | Numeric Score | 69.7054 | 20.0000 |
| Basic Physics | 83.7316 | Numeric Score | 83.7316 | 20.0000 |
| Tools | 95.2732 | Numeric Score | 95.2732 | 20.0000 |
| Spatial Reasoning | 65.0262 | Numeric Score | 65.0262 | 20.0000 |
| Weighted Average: | | | | 75.6638 |
| Final Overall Score: | | | | 75 |
