Job Match: Diretor de Empréstimo (Português)	82	0.8	Summary Points (AI): • (Generic Text for Sample Report) Exceptional Writing competency is a critical asset for the email communication component of this customer service role. • Customer Service Fundamentals and Customer Service Mindset scores are among her highest, directly aligning with the core knowledge requirements of the job. • High Empathy and Emotional Self-Control and Integrity scores are well-suited for handling complaints, resolving disputes, and maintaining professionalism. • Strong Adaptability score supports the varied nature of customer service work and the required on-the-job learning period. • Resilience and Drive scores indicate a motivated candidate capable of sustaining performance in a demanding customer-facing environment. • Multitasking competency is adequate for managing multiple concurrent customer interactions, though there is room for improvement. • Teamwork score is moderate, which is sufficient but worth monitoring given the need to refer unresolved issues to other departments. • Analytical Thinking and Attention to Detail is the lowest-rated competency, posing a moderate risk for tasks requiring accurate record-keeping, data entry, and verification of resolutions. • History Survey - Performance score is relatively lower, introducing some uncertainty about consistency of past job performance. • Overall competency profile strongly favors customer-facing, communication-heavy responsibilities while showing some gaps in detail-oriented and analytical tasks. Narrative (AI): Elizabeth Wantsajob demonstrates strong alignment with the Diretor de Empréstimo (Português) role across several key dimensions. Her standout strengths include an exceptional Writing competency, which is critical for the email communication component of this role, as well as high scores in Customer Service Fundamentals and Customer Service Mindset, directly mapping to the core knowledge and service orientation required by the job description. Her strong Empathy and Emotional Self-Control and Integrity scores are well-suited for handling customer complaints, resolving disputes, and maintaining professionalism in challenging interactions. Adaptability is also a notable strength, which supports the varied nature of customer service work and the on-the-job learning curve expected in this role. Her Resilience and Drive scores indicate a candidate who is motivated and capable of persisting through the demands of a customer-facing position. Multitasking and Teamwork scores are solid, supporting the need to manage multiple customer interactions and collaborate with internal departments. On the weaker side, her Analytical Thinking and Attention to Detail score is the lowest among her competencies, which is a moderate concern given the job's emphasis on accurately keeping records of customer interactions, verifying

Detail

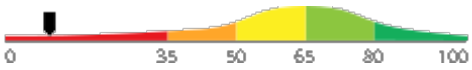
Integrity

Score: 10



Description:

This scale reflects the degree to which an individual acts positively towards the organization, avoids unnecessary risk, and, simply put, does the right thing. High scores on this scale indicate a person will act in the organization's best interest, follow the rules, and work hard under limited supervision. Low scores on this scale indicate a person may engage in risk-taking behaviors, work to undermine the organization, and only do the bare minimum.

Interpretation:

The candidate's score in this area indicates risk of a negative impact on performance for some jobs. Additional probing is strongly recommended.

Distrusts the organization and management. Frequently assumes new ideas or changes will have a negative individual impact. Can be defensive regarding his or her own work, or show hostility towards management or company policies. May take unnecessary risks on the job.

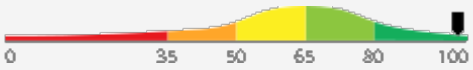
Detail

Resilience

Score: 98



Description:

This scale reflects the degree to which an individual can withstand adversity, bounce back from difficult events, and be persistent in doing work tasks despite difficulties that come their way. High scores on this scale indicate a person will likely be able to deal with difficult situations with ease, perceive they have control over events in their life, and continue to push forward to achieve goals. Low scores on this scale indicate a person may claim that mistakes/failures were out of their control. Low scorers tend to not cope well with on-the-job stress and don't put in the extra effort to achieve success when obstacles come their way.

Please note that resilience is not a fixed trait. Unlike many other personality characteristics, resilience can be developed over time. Additionally, multiple factors can influence how resilient a person is within a specific situation. In recognition of these features, additional probing using suggested interview questions is strongly recommended.

Interpretation:

The candidate's score in this area should contribute to enhanced overall job performance.

Responses indicate that the candidate can effectively work through difficulties at work by exhibiting positive emotions, having control over the events, being proactive, remaining hopeful, and learning from the experience. Candidate can always be expected to push forward to achieve their goals, even when obstacles come their way.

Interview Guide

Writing Samples

During the assessment, the candidate was asked to write one or more passages. The text they wrote is included below for review.

Question or Task	Response
Please write an essay of 100 - 800 words evaluating the advantages and disadvantages of living in a tropical climate.	Living in a warm or tropical environment has a number of advantages and disadvantages. Whether it's right for you depends on your preferences, and in some cases, your health. The advantages include the following: a. You can walk outside in light clothing almost every day and you never have to wear a heavy coatt. b. Most plants and trees grow faster in warm climates so if you like to maintain a garden you will experience greater success. c. Nice weather every day means you are not stuck inside for long periods of time, which can sometimes cause depression. At the same time, significant disadvantages include the following: a. It rains on most days and you need to be prepared for heavy rain at all times. b. The hot sun can cause severe sunburn if you are outside and not protected. c. Your air conditioning utility bill can be very high and if can drain financial resourcez. d. Hot humid weather can make strenuous exercise more difficult if you are not in good health. When deciding if living in a tropical climate is right for you, consider which of these advantages or disadvantages is most meaningful for you. **Comments (AI):** The essay provides a balanced view of the advantages and disadvantages of living in a tropical climate. The ideas are logically presented and easy to follow, though there are minor spelling and grammar errors. The arguments are somewhat persuasive, but could be strengthened with more detailed examples and explanations. Overall, the essay meets the average scoring criteria. **Misspelled Words:** coatt (1), resourcez (1)

Report Preparation Notes

- Hiring decisions should never be based on a single source of information. The most effective use of this assessment report is as a part of a multi-faceted program of candidate evaluation that includes resume review, interviews, and reference checks.
- Overall vs Percentiles Scores: The overall score reflects the success in the test, based on the mean (average) and standard deviation of the test scores. The percentile score reflects the percentage of test-takers who scored equal or below this overall score. We recommend you use the Overall Score as your primary evaluation criteria. However, percentile scores can often be useful in comparing specific candidates against one another and with a group, such as for test takers in a certain organization or within a certain account.
- Note that comparison information is calculated based on completed instances of this assessment at that time the assessment is scored. As additional instances are completed, the comparative data may change. You can always update a report to the current values by clicking on 'Recalculate Percentiles' within the online results viewing pages at www.hravatar.com.
- Most competency scores are norm-based, which means that they can be interpreted in terms of their distance from the average or mean score. For all scales, a score equal to the mean receives a score of 65 and scores above and below this value are set so that a score change of 15 equals one standard deviation.
- For linear competencies, higher is better across the entire scale. For these scales a score between 65 and 80 (light green) represents 0 to 1 standard deviation above the mean and a score above 80 (dark green) represents more than one standard deviation above the mean. Similarly, a score of 50 - 65 (yellow) represents 0 to 1 standard deviation below the mean, while a score of 35 - 50 (orange) equates to 1 to 2 standard deviations below the mean, and a score below 35 represents more than 2 standard deviations below the mean.
- This assessment makes use of data from the Occupational Information Network (O*NET), which is funded by the U.S. Federal Government - U.S. Department of Labor/Employment and Training Administration (USDOL/ETA) - as a primary source of occupational information. The O*NET database contains information on hundreds of standardized and occupation-specific descriptors that are continually updated by ongoing research. These data are used in preparing descriptive information as well as setting relative weights between competencies used in calculating the overall score. For additional information about O*NET, visit http://www.onetcenter.org.

Score Calculation Detail

The following table provides a summary of how the overall score was calculated from the individual competency scores. Competency scores are calculated on a 0-100 scale by first calculating a Z statistic based on test-taker responses and then transforming the Z value to a scale with target mean and standard deviation. Certain competencies have a normal score distribution where it is best to be closest to the mean. For these competencies we modify the Z statistic by multiplying its absolute value by minus 1 for the overall score calculation. Next, to calculate the overall score, a weighted average of all modified competency Z statistics is computed and this weighted average is itself transformed to a Z statistic, which is then transformed to a score with the same target mean and standard deviation. Finally outlier scores are adjusted if they are below 0 or above 100.
